

## BANKERS ASS'N. ASSAIL VIEWS OF LA FOLLETTE

Is Liability to Nation, Edgerton Tells Convention

(By The Associated Press.)  
CHICAGO, Oct. 1.—The political views of Robert M. La Follette, independent candidate for president, were assailed today at the annual convention of the American Bankers' Association general convention.

Previous sessions had confined themselves to condemnation of the principal planks in the platform of the independent candidate, whose name was not mentioned, but today he was specifically named as "the nation's chief liability" in an address prepared for delivery by John E. Edgerton, president of the national association of manufacturers. Mr. Edgerton declared "the elements of distrust and suspicion, prejudice and hatred and discontent have been brought together in a dangerous power by an enterprising genius from Wisconsin who is never happy except when conspicuous as either a destructionist or obstructionist."

Except for the human element of responsiveness of the egoistic to the appeal of the demagogues, "it would be compelled to find some useful employment for their misapplied talents."

"If there is anything against which the citizenry of our country must resist," he continued, "it is the impudently recurring attempts of charlatans in various disguises to weaken the arm of our courts by cunningly devised statutes and amendments to the constitution. It has become a fad, or rather a disease, to amend our constitution and by ending it, to render inoperative the wise provisions of its original architects."

"One of the proposals which embody the evidence of this so-called child labor amendment. It is meant to restrict production and compel unproductive advances in wages and to expend the powers of the federal government to require the creation of more public offices and a further excuse for raising the cost of government."

"These measures could not affect an enlightened country except for the qualified voters are taking no interest in their government. This military or cent. increases for the most part the more responsible elements and society—bankers, professional and business men."

"Bankers, manufacturers and business men have so absorbed by their individual responsibilities and concerns with one or two selfishness that there is not uniformly what is going on about them."

Election of officers of the association and the national bank division was on today's program. The resolution committee was ready to report to the general convention session.

The need of a national organization of bank auditors urged by L. H. Frankfort, president of the Chicago bank auditors' conference, presiding over the first national conference of bank auditors held today under the auspices of the clearing house section of the association. He predicted that the draft on the accounting profession during the next decade for higher executives for industrial organizations would be greater than that from any other.

## Caverly Reported Suffering From Nervous Attack

(By The Associated Press.)  
CHICAGO, Oct. 1.—Judge John R. Caverly, who sentenced Richard Loeb and Nathan Leopold, Jr., youthful murderers-kidnappers, to life imprisonment, has been closely guarded by a patient in a hospital here since the close of the case, says today's Chicago Tribune.

Although Mrs. Caverly denies that the judge is sick and says she has been going to the hospital to visit friends, the newspaper says he is believed to be recovering from a nervous breakdown after determining the fate of the boys.

Availanche of letters and telephone calls directed to him during the trial in efforts to influence his decision are thought to have had a disastrous effect on his health, the Tribune says. Strictest precautions are taken to prevent any break in his rest.

## Liquor-Laden Ship Is Forced Into Port

(By The Associated Press.)  
NORFOLK, Va., Oct. 1.—Forced to put into port because of high seas and a scarcity of supplies and fuel, the French cable repair ship Edouard Jermes has reached Norfolk with a quantity of liquor far in excess of that allowed under American prohibition laws.

Capt. G. Lamarque, master of the vessel, stated that when he put out from Halifax he had no intention of stopping at any American port. However, while working on a damaged cable near Hatteras the fuel supply began to dwindle and rough seas were encountered.

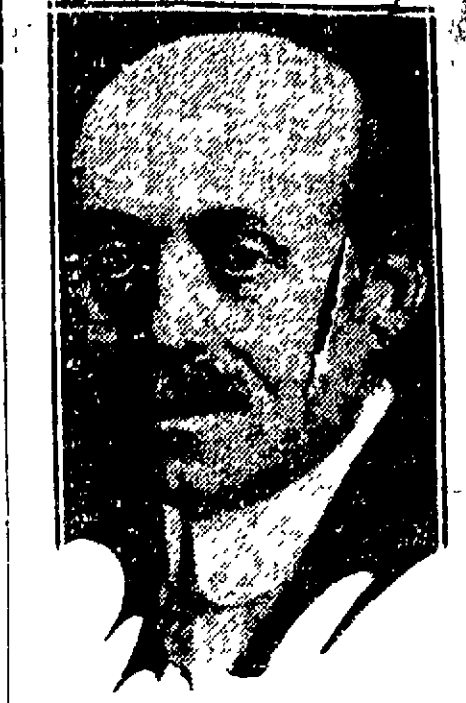

On board the vessel are 135 barrels of wine, two barrels of rum, 414 bottles of whiskey, 225 bottles of cognac, 324 bottles of Port wine and 207 bottles of champagne. All of this is listed for the crew. The officers of the vessel have their own stock in addition.

## Reconciliation In Kendrick-Butler Squabble Reached

(By The Associated Press.)  
PHILADELPHIA, Oct. 1.—A reconciliation is being effected between Mayor W. Freeland Kendrick and General Smedley D. Butler, director of public safety, according to a statement issued today by the mayor.

"As a result of the interest of mutual friends," said the statement, "an am in receipt of a letter from General Butler which is satisfactory until such time as he is physically able to call upon me and discuss differences, which must be satisfactorily adjusted."

## HEADS BANKERS ASSO.

(By The Associated Press.)  
CHICAGO, Oct. 1.—William E. Knox, president of the Bowery Savings Bank of New York City, today was unanimously elected president of the American Bankers' Association. Oscar Wells, of Birmingham, Ala., was chosen first vice-president.

## Warn Points On James River of a Further Rise

(Continued From Page 1)  
larger bridges or full approaches had been affected.

Roads in the Suffolk district were also feeling the effects of high water from the Nottoway river. Two or three sections of roadway were put out of commission during the night. Highway men said reports from the section around Lynchburg and Columbia were expected to reveal considerable damage.

Traffic in parts of the state was at a standstill this morning and road conditions were expected to worsen from 24 to 48 hours before it would resume normal.

## HEAVY DAMAGE IN NORTH

NEW YORK, Oct. 1.—Communities throughout New York state today faced the necessity of cleaning up the debris and repairing the destruction of one of the heaviest rainfalls which has swept this section of the country in years. Two deaths, damage and destruction of property and crops, flooded streets and cellars and inundated and washed out highways and railway tracks today told the tale of the effects of a rain, which began Sunday and continued for two days. Precipitation ranged from less than one inch to nearly five inches, with records of nearly thirty years' standing being broken in some localities.

## N. C. CROPS INJURED

(By The Associated Press.)  
RALEIGH, N. C., Oct. 1.—Eastern North Carolina today was taking stock of the damage wrought by the recent heavy rains which carried most of its rivers out of their banks and caused widespread damage to crops and property. Though the danger had not yet passed, it was expected with the cessation of the continuous rain that the streams soon would begin to recede.

The heavy rain today was passing down the Cape Fear river opposite Fayetteville. Here the water was at a height of around forty feet. The Roanoke river also was at its crest at Wilson with a flood stage of more than thirty-five feet. The Neuse was beginning to recede. Similar reports were received from the cities and towns adjacent to the Tar, Little, Flat and other rivers which had been reported out of their banks yesterday.

The State highway system suffered heavily.

Coastal towns which yesterday were menaced by a storm of hurricane proportions today were reported having weathered the gale without serious damage, though the power plants in many cases were put out of commission by high water.

## FEARS FELT FOR BRIDGE

(By The Associated Press.)  
PETERSBURG, Va., Oct. 1.—With the Appomattox river still rising, fears are today felt for the safety of Bishops bridge, which is the main approach to Petersburg. City Engineer Budd is watching the structure, and plans are being made today to place guards near it during the night in an effort to prevent log jam. The river is up ten feet this morning, and officials expect a steady increase in height throughout the day.

## TRACKS ARE SUBMERGED

(By The Associated Press.)  
LYNCHBURG, Va., Oct. 1.—Chesapeake and Ohio officials here were advised today that passenger train No. 10 would be operated over the Virginia Air line via Lindsay to Richmond today because of the submergence of the James river tracks between Strathmore and Richmond.

The crest of the freshet 17.9 feet was reached here late yesterday afternoon and the government gauge this morning registered 44.2 feet.

## Coolidge Engaged In Busy Day

(By The Associated Press.)  
WASHINGTON, Oct. 1.—President Coolidge divided his time largely today between receiving funeral reports on the development of the campaign from various callers and preparation of the address he will deliver here Saturday at the dedication of the first division monument.

The President had set apart some of the day to take part in the celebration here welcoming the Washington baseball team home after its successful fight for the American league pennant. He planned to address a few words of welcome to the players, at the conclusion of a parade in their honor.

## PROPERTY TRANSFERS

Deeds of bargain and sale recorded in the clerk's office of the corporation court show the following property transfers:

Bertie W. Dance from W. W. Williamson and wife 43 feet on Lee street. Consideration, \$1,850.

Mildred Conwar from Lillie D. Risdon, 37 feet on Main street. Consideration, \$20,000.

F. L. Gunn from A. B. and Estelle Taylor, 50 feet on West Broad street. Consideration, \$2,210.

C. L. and Eva Adams from Ramey & Ashworth, Inc., 39 feet on Wyllie avenue. Consideration, \$2,680.

## CELEBRATE FIRE PREVENTION WEEK

LYNCHBURG, Va., Sept. 30.—Extensive plans are being made for the celebration of Fire Prevention Week here Oct. 7.

## POTIER TRIAL NOT A FEDERAL CASE IS CLAIM

Defense Claims Killing Did Not Occur on Government Property

(By The Associated Press.)  
TACOMA, Wash., Oct. 1.—Counsel for Roland Potier, former sergeant-Bugler of the 215th engineers at Camp Lewis, Washington, was prepared today to offer arguments at the opening of Potier's trial on a charge of murder, as a result of the death of Major Alexander Crankhite at Camp Lewis, on October 25, 1918, to show that the case should not be tried in the federal court here owing to lack of jurisdiction.

The defense asserts that Camp Lewis was not government property when Major Crankhite was killed and the case is one for trial by the State court. The State authorities have indicated they would not bring the case to trial if jurisdiction was passed to them.

Robert Rosenbluth, former captain of a company of the 215th engineers, is scheduled to testify Oct. 22 on a charge of murder resulting from Major Crankhite's death.

A jury was selected yesterday. Some eighty witnesses from all over the United States are here for the trial. Jonah J. Goldstein, of New York, friend and attorney of Rosenbluth, was a spectator during the selection of the jury, as was L. Rosenbluth, aged father of the former army captain. Goldstein came west he said, to be of whatever service he could to his boyhood friend, rather than for any fee. Goldstein said that Rosenbluth is now practically without funds.

Arnold Davis, who was Potier's attorney at Providence, R. I., also is in Tacoma, subpoenaed as a witness. General Adelbert Crankhite, father of the dead major, has been reported to have been in the northwest for the past several days, either in cattle or Tacoma, but has been successful thus far in avoiding interviews. It being believed that he will not reveal himself until he is called as a witness.

## Good Morning Judge!

Only two cases were disposed of in the police court this morning by Magistrate C. K. Carter. Will Harris, colored, who was tried yesterday on charges of housebreaking and robbery, was tried on another similar case this morning, being sentenced to thirty days and fined \$5 and costs after stealing an overcoat from the home of Jack Womsey on Noble avenue.

S. G. Dudley was assessed \$21 and costs on a charge of reckless driving.

## Normal Schedules On D. and W. Are Resumed Today

Regular schedules were resumed today by the Danville and Western railway after a temporary halt yesterday caused by high water in Patrick county, one stretch of track, a mile long being inundated between Stuart and Preston.

Major Theo Parker, superintendent of the road went to the scene of trouble in his private car yesterday afternoon and returned later with the report that the track had not been damaged to an extent and that Koger's creek bridge had been repaired having suffered but little. The flooded creek literally floated the trestle off its foundation but when the waters receded the structure repeated itself though workmen went over it thoroughly and made a few minor repairs. Train number three, bound to Stuart was unable to make the trip yesterday. The regular schedules were resumed this morning and no further delays are anticipated.

Three days of heavy rain in Patrick and Henry counties brought out all of the creeks from their courses and at one point the railway tracks were four feet under water. The subsidence of the flood however was quick when the crest had been reached.

## Police Convinced Youth Murdered After Accident

NORFOLK, Va., Oct. 1.—Police are convinced that Elwood Everett Huggins, 17, was murdered after being struck by an automobile on the Oakliffe bridge near Norfolk Sunday night. At an autopsy it was learned that the boy had not been seriously injured before he died from the drowning. It was proved that he had been struck by a car and that he was killed, and it was the body overboard to escape detection.

## Lynchburg Has Elevator Troubles

(By The Associated Press.)  
LYNCHBURG, Va., Oct. 1.—Passenger and freight elevators here, which are operated by electric power, were back in commission this morning after being idle two days. Officers of the Lynchburg Traction and Light company said they were unable to find the cause of trouble, which resulted Monday in several motors burning out and the electrocution of a negro who was operating a freight elevator. Business concerns and office building owners did not start their elevators until this morning when traction officials advised them it would be safe to do so.

## SIX RACES ON CARD.

(By The Associated Press.)  
NEW YORK, Oct. 1.—The 12 day autumn meeting of the Metropolitan Jockey club will begin at Jamaica today with a card of six races. Zev, Madplay and Rialto will be entered in the feature event, the Interborough handicap, a 1 1/2 mile and a sixteen with \$3,500 added.

Few people drink enough water, according to medical experts. Milk readily becomes a breeding place for microbes in hot weather. Many great mathematicians have been equally weak at arithmetic.

## Angels Must Guard Him

Up and down New York, in and out of traffic, men shove handtrucks loaded with merchandise. Hurrying taxicabs brush past them, machines follow close behind and at intersections automobiles speed across their path—yet one seldom is killed.

## HUNT'S DAILY LETTER

By HARRY B. HUNT

WASHINGTON, Oct. 1.—Sixteen out of every 100 residents of the District of Columbia were arrested for something or other in the last year. These are official police figures. They mean another investigation when Congress reconvenes. Congress is the district's city council, or board of supervisors.

It is conceded by everybody that something must be the matter with any place where nearly a fifth of the entire population gets put in jail in the course of a year.

Congress will be asked to find out what the matter is.

The statistics mean more than may appear at first glance. For every adult male resident of the District there are four and a fraction women and children. (Just what the fraction represents the census bureau doesn't say—perhaps, who have had their tonsils, adenoids or appendices removed. Four-and-a-fraction is the record, anyway.)

Now, certainly not nearly as many women as men are arrested, and very few children are arrested at all. So most of the arrests must have been made among a fraction less than one-sixth of those who live in Washington.

Take that into account, and it becomes apparent that a grown-up male resident of the nation's capital has quite a job on his hands to keep out of the law's clutches at least once a year.

A large proportion of the arrests were for misuse of the automobile. This suggests the question of plans for reducing the number of motor car fatalities.

And this, in turn, leads up to the interesting, if pessimistic, conclusion of the Washington police that, though such tragedies may be reduced in number, a heavy automobile death toll is inevitable, anyway.

The Washington police theory is that the public has come to accept auto deaths as a development of the times.

It can prolong life for awhile. It can fight the white plague. It can fight diphtheria and typhoid. It provides vaccination. It has serums and X-ray is efficacious in cancer cases, sometimes.

But science can't avert death, from some cause or other, in the end. Just so with the automobile. It may be regulated a little but it will do its work ultimately. That's the view of the Washington police.

Two per cent of the District of Columbia's population were arrested last year for intoxication. When it's considered how many people take a drink in proportion to the number who get drunk, and how many get drunk in proportion to the number who get caught, the only fair conclusion is that the district is rather wet.

## STATE MOTOR VEHICLE HEAD CAN NAME AIDS

RICHMOND, Va., Sept. 30.—James M. Hayes, Jr., motor vehicle commissioner sufficient to carry out the provisions of the law as set forth in chapter 368, acts of assembly, 1924. According to a decision by Attorney General Saunders.

About two weeks ago Colonel Saunders sent an opinion to Mr. Hayes in which he held that the motor-vehicle commissioner had no authority under the law to name deputies for the expressed purpose of enforcing the law against that class of persons who misused the road—speeding, reckless driving and other violations of the law.

The last question of the law, the general construction of the law, the rights and powers of the commissioner, in the naming of deputies for the enforcement of the owners of the law in general. This was a more comprehensive question than the first asked by Mr. Hayes, and to that there was returned a specific answer, denying the right to name the deputies for any one specific purpose, but holding such appointments for general law enforcement valid.

## NORWEGIAN STEAMER SINKS

NORFOLK, Va., Sept. 30.—The Norwegian steamer Ringhorn was in a sinking condition twenty miles southwest of Frying Pan Shoals, and had been abandoned by her crew according to a radio message received here tonight from the American steamer Comanche.

En route also Norwegian according to the message, was standing by the stranded steamer and had taken her crew aboard.

## FARM HOME BURNS

(By The Associated Press.)  
WARRENTON, Va., Oct. 1.—Fire last night destroyed Rappahannock county farm home of J. S. Cosden, but the contents of the house were saved. No one injured, nor the origin of the fire been determined.

## PROBE DISCLOSE ENTRY OF BOOZE ON BIG SCALE

Over 150,000 Cases of Intoxicants Landed In Maine During June

(By The Associated Press.)  
BREMEN, Oct. 1.—Investigation of the landing of a cargo of whiskey on the French steamer Mulhouse off the Canadian coast, developed that more than 150,000 cases of whiskey, brandy and wine entered the United States along the shores of Maine, Massachusetts, Connecticut and New York during last June, Magistrate Fournier of the French maritime court, said today.

"If only half the liquor we have traced which was bound for the United States actually landed in American territory, then your country must have had a very wet spell indeed," Magistrate Fournier told The Associated Press.

"Perhaps if the American prohibition authorities acquainted with the details of this case it would facilitate their tasks in running down rum-runners. This investigation will be carried to the extreme limit of the law, regardless of who is hurt. If French firms are shown to have violated the American prohibition law they will be exposed, as well as the British firms that are implicated."

"I have the names and addresses of men higher up in the so-called whiskey ring in New York and these will come out during the trial of this man Phat."

Magistrate Fournier added that he had the address of the meeting place in New York where brokers for whiskey firms met agents of whiskey rings and where deals running into six figures in dollars were closed daily.

"These men have unlimited financial backing," M. Fournier said. "One

of the strongest banks in Canada is shown as financing many of their deals."

The French magistrate said that is a bona fide agent of the American prohibition forces duly accredited by the American government should come to him for information, his records would be open to him.

## No Evidence Of Corruption Among Officers Given

WASHINGTON, Oct. 1.—Officials of the law enforcement bureau of Philadelphia failed to present evidence of political corruption among federal office holders in Pennsylvania at their conference today with Attorney General Stone. It was announced at the department of Justice.

## Do you yearn for a clear complexion?

Try the Resinol products a week and watch your skin improve! Resinol Soap thoroughly cleanses the tiny pores and rids them of impurities. Resinol Ointment soothes and heals the inflamed, irritated spots. The most aggravated cases of skin affection have readily responded to this treatment. Can be obtained from all druggists.

## RESINOL

## Low Fare Excursion to Washington

Tickets sold for trains leaving Danville, Va., 2:45 p. m., Friday, October 3rd and 12:15 a. m., and 5:10 a. m., Saturday, October 4. Good to return on regular trains (except No. 37) to and including 9:35 p. m., Sunday, October 5, from Washington.

## BIG DAY IN WASHINGTON, SATURDAY, OCT. 4.

# SOCIAL ACTIVITIES

**Baptist Young Peoples Leaders To Speak Here**

Miss Katherine Harris, State young people's leader of the Woman's Missionary Union of the Southern Baptist Convention, and Miss Juliet Mathews, young people's secretary, will speak to the young people of Lee Street Baptist Church, Thursday evening at 8 o'clock.

Miss Harris and Miss Mathews will speak to the young people at Mt. Hermon church Thursday afternoon at 2:30 o'clock. A cordial invitation is given to all Baptist young people in the city and surrounding community.

**Visiting In Washington.**

Mrs. E. W. Woodward left yesterday for Washington D. C., where she will spend several months with relatives.

## South Boston

(Special To The Bee)

**SOUTH BOSTON, Oct. 1.**—C. L. Wilborn is in East Radford on business this week.

Mr. and Mrs. O. Dunn are visiting relatives in Burkeville and Crew.

Mr. and Mrs. Fleet Powell spent the week-end here with Mrs. Powell's parents, Mr. and Mrs. T. M. Neathery. Natalie Owen has returned after visiting relatives at Crystal Hill.

R. B. Scoggins, of Timberland, S. C. spent the week-end with his family.

Claiborne Marton has returned from Timberland, S. C., where he will spend the winter here with relatives.

R. H. Dowdy has accepted a position as buyer for the tobacco market in Rocky Mount.

Mr. and Mrs. W. D. Noblin have returned after visiting relatives in Wheeling, West Va.

John Harris and son, Richard, Ben Dickerson and C. B. Lacy attended the Stribling fight in Raleigh.

Ralph Irby has returned to Winston-Salem after visiting relatives here.

Mr. and Mrs. Edward DeJarnette, of Ontario, S. C., spent the week-end with parents, Mr. and Mrs. T. F. DeJarnette.

Mrs. W. C. Moore, of Colonial Heights, is quite sick.

John Wilmouth continues quite sick at his home on Wilborn avenue.

John Patterson, of Colonial Heights, continues quite indisposed at his home suffering with a severely sprained ankle, which accident occurred ten days ago in Greensboro, N. C.

The council met yesterday afternoon at 3:30 and passed an ordinance on parking on one-way streets.

The thirty-minute parking limit will go into effect on Oct. 1st.

The express office to the postoffice. Also from Main down Wilborn avenue to Mineral street.

Charles Arch and Ferris streets will be one-way streets beginning October 1st.

Fishermen at St. Ives, Cornwall, England, play marbles during their spare time.

In 1882 the population of the United States had barely passed the 50,000,000 mark.

## You Poor Kid, Why Are You So Skinny?

Don't your mother know that Cod Liver Oil will put pounds of good healthy flesh on your bones in just a few weeks?

Tell her every druggist has it in sugar-coated tablet form now so that you won't have to take the nasty, fishy-tasting oil that is apt to upset the stomach.

Tell her that McCoy's Cod Liver Oil Tablets are chock-full of vitamins and are the greatest flesh producers and health builders she can find.

One sickly, thin kid, aged 9, gained 12 pounds in 7 months.

Go just ask Patterson Drug Co., Jacobs Pharmacy, J. C. McFall or Frank McFall's Drug Store or any other good druggist for McCoy's Cod Liver Oil Tablets—60 tablets, 50 cents—as pleasant to take as candy.

"Get McCoy's the original and genuine Cod Liver Oil Tablets,"—adv.

## I Paid \$5

For these powders once

By Edna Wallace Hopper

I was asked to offer women my aide to youth and beauty, and I did. They are, I believe, the greatest in existence, for I searched the world to get them.

Then countless women asked me about powders. I am an actress and a movie star. We in our world care nothing for expense. A worth in which adds to our beauty is worth many times its cost. So I have long paid \$5 per box, as have others, to obtain the very best in a powder. Each lot was made in order.

Now I have asked the makers to supply these identical powders in quantities at prices all could pay. I have agreed to market them to women who desire them. They will supply these same powders at \$1 per box, and I will pass that to the kindness of the makers.

I use a heavy cold-cream powder based on my Youth Cream. It clings and stays. This is all my Youth Cream Powder. Buy many women use a powder in a puff. So I have this powder made in two forms: All day and night. The night one now supply my Youth Cream Powder at \$1 and my Light Face Powder at \$1. Each comes in three shades: white, flesh and brunette.

There are no water powders in the world, but I have never found them, and I have consulted the greatest experts. I know that anyone who compares them with ordinary powders will be amazed and delighted.

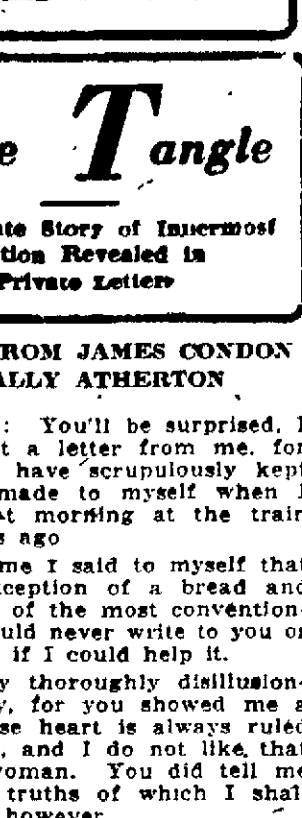

I will gladly send you a sample of the best you want. I will mail this coupon. Please do that now.

## Secrets of Beauty

By MARIAN HALE  
Pictures Posed by Ruth Macdonald  
(Miss America)

The beauty seeker will naturally watch her diet closely knowing that her figure, her complexion and her health generally are at stake.

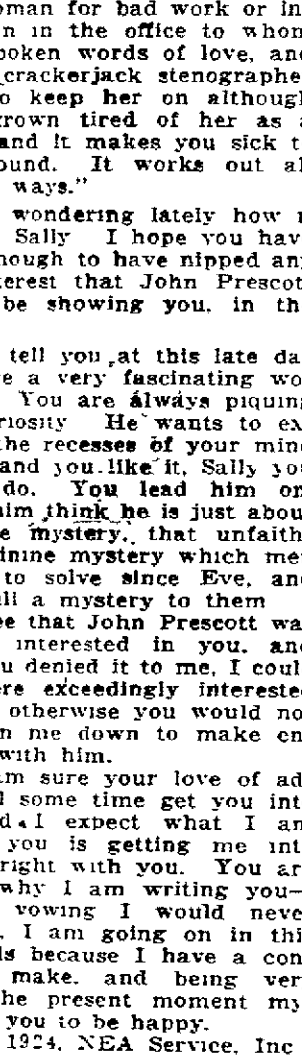

We should be very careful about combining foods at each meal and see to it that a variety of fresh fruits and vegetables are included in the daily fare.

The amount of food needed to nourish the body varies with the individual. In these days when slenderness is so much prized most women find it necessary to reduce rather than take on flesh.

But faddy diets make business for physicians and beauty doctors. A too decided change in diet is a severe shock to the system and women who half starve themselves to be slim often pay the penalty by becoming prematurely wrinkled and haggard.

The rational way to diet is to cut down the amount of food taken at

Atlantic coast states are swept by rain and windstorm, unprecedented in any sections, which does uncalculated property damage and causes number of deaths.

United States Senator Smith W. Brookhart, Republican, Iowa, in letter to Chairman William M. Butler, chairman of republican national committee, urges for resignation of General Dawes as vice-president on ground he has wrecked republican organization, particularly in northwest.

Irish boundary commission bill is advanced by House of Commons by ten hour debate and motion by Premier MacDonald for second reading.

Despite reported receipt of claim for insurance by Lieke's of London, members of family of John Sanford refuse to confirm report of theft of \$50,000 in jewels from their Long Island residence, where Prince of Wales was entertained.

Two trawlers prepare at New York to start for Virginian capes to attempt to salvage sunken liner Meridia, which was sunk 13 years ago and is said to have contained millions in silver and other metals in hold.

Postponement of war of trans-Atlantic flight of Albatross 21-A, destined for United States navy service, is due to unexpected trouble, says Friedrichshafen dispatch to London Daily Mail.

Increase of 20 per cent in number of automobiles registered in United States in first half of 1924 over corresponding period in 1923 is reported by American automobile association.

Earthquake, which shook New England early Tuesday, is thought by Harvard scientists to have originated in maritime provinces and have been latest of series of ancient disturbances.

Six members of bandit band which killed Henry Cleroux, messenger of Bank of Hochelago, last spring, will be hanged October 24 court of appeals at Montreal decrees.

## FASHION NOTES

### NEW SLEEVES

Sleeves of many of the wool coats have puffs of fur below the elbow—soft fur, like mole or seal.

### MONKEY FUR

Monkey fur is used lavishly in Paris, being smart to form border and collar and cuff effects.

### FELT HATS

The most fashionable black felt hats are combined with velvet either in black or in a bright color.

### COLOR COMBINATIONS

Two shades of material are combined effectively in evening frocks. Yellow and orange, two tones of green and lavender and purple.

### ENGLISH TOBACCO MEN VISIT SOUTH

RICHMOND, Sept. 30.—Prominent English tobaccoist officials and directors of the Imperial Tobacco company, will visit the tobacco fields of the South before returning to England. The party are now registered at a Richmond hotel with their families.

The party composed of George A. Falk Bristol, England, secretary of the Imperial Tobacco company; W. J. Player, Nottingham, England; and E. R. Falkner, London, both members of the board of directors of the Imperial Tobacco company, plan to visit southern tobacco fields of Virginia, North and South Carolina, Tennessee, and Georgia as well as the company's property in these States.

The tobaccoists left last night for Wilson, North Carolina, accompanied by Leslie H. Reed, resident managing director of the Imperial Tobacco company. They will inspect the fields of Virginia, North and South Carolina on this trip. Returning the latter part of the week to Richmond they will make an inspection trip to Georgia and Tennessee.

### ADD SODA TO WATER

Soda is excellent for the water in which you are washing greasy dishes but it should be avoided if the dishes have gilt on them because it has a tendency to eat it off gradually.

### TO AIR MATTRESSES

A good way to air a mattress is to draw it over the footboard and let it stand thus for half a day.

### USE WATER SPARINGLY

To make oilcloth last a long time be careful when you wash it. Use water very sparingly as it is apt to soak through the cloth and rot it.

### COOK UNCOVERED

Green vegetables keep their color better if cooked uncovered.

### MERGER OF TOBACCO COMPANIES DENTED

RICHMOND, Va., Oct. 1.—Impending merger rumors involving the Continental Tobacco Company and Philip Morris & Co., Inc., which have been circulating in Richmond for several days were denied here yesterday.

The Continental Tobacco Company was organized here last year, and is devoted to the manufacture of cigarettes and smoking tobacco for the David A. Schuler retail stores. It is located at 1915 East Main Street.

F. M. Collier, formerly connected with the Falk Tobacco Company, is vice-president of the Continental Company.

Local officials said yesterday that there was no contemplated merger, and said they regarded the reports as merely a rumor.

RICHMOND, Va., Oct. 1.—Impending merger rumors involving the Continental Tobacco Company and Philip Morris & Co., Inc., which have been circulating in Richmond for several days were denied here yesterday.

The Continental Tobacco Company was organized here last year, and is devoted to the manufacture of cigarettes and smoking tobacco for the David A. Schuler retail stores. It is located at 1915 East Main Street.

F. M. Collier, formerly connected with the Falk Tobacco Company, is vice-president of the Continental Company.

Local officials said yesterday that there was no contemplated merger, and said they regarded the reports as merely a rumor.

## FASHION NOTES

### NEW SLEEVES

Sleeves of many of the wool coats have puffs of fur below the elbow—soft fur, like mole or seal.

### MONKEY FUR

Monkey fur is used lavishly in Paris, being smart to form border and collar and cuff effects.

### FELT HATS

The most fashionable black felt hats are combined with velvet either in black or in a bright color.

### COLOR COMBINATIONS

Two shades of material are combined effectively in evening frocks. Yellow and orange, two tones of green and lavender and purple.

### ENGLISH TOBACCO MEN VISIT SOUTH

RICHMOND, Sept. 30.—Prominent English tobaccoist officials and directors of the Imperial Tobacco company, will visit the tobacco fields of the South before returning to England. The party are now registered at a Richmond hotel with their families.

The party composed of George A. Falk Bristol, England, secretary of the Imperial Tobacco company; W. J. Player, Nottingham, England; and E. R. Falkner, London, both members of the board of directors of the Imperial Tobacco company, plan to visit southern tobacco fields of Virginia, North and South Carolina, Tennessee, and Georgia as well as the company's property in these States.

The tobaccoists left last night for Wilson, North Carolina, accompanied by Leslie H. Reed, resident managing director of the Imperial Tobacco company. They will inspect the fields of Virginia, North and South Carolina on this trip. Returning the latter part of the week to Richmond they will make an inspection trip to Georgia and Tennessee.

### ADD SODA TO WATER

Soda is excellent for the water in which you are washing greasy dishes but it should be avoided if the dishes have gilt on them because it has a tendency to eat it off gradually.

### TO AIR MATTRESSES

A good way to air a mattress is to draw it over the footboard and let it stand thus for half a day.

### USE WATER SPARINGLY

To make oilcloth last a long time be careful when you wash it. Use water very sparingly as it is apt to soak through the cloth and rot it.

### COOK UNCOVERED

Green vegetables keep their color better if cooked uncovered.

### MERGER OF TOBACCO COMPANIES DENTED

RICHMOND, Va., Oct. 1.—Impending merger rumors involving the Continental Tobacco Company and Philip Morris & Co., Inc., which have been circulating in Richmond for several days were denied here yesterday.

## OFFER REWARDS FOR HEADS OF WU AND KUN

### General Chang, Hearing of Rewards For Him, Also Makes Offers

(By The Associated Press.)

TOKIO, Oct. 1.—A general engagement between the forces of Chang Tso-Lin, Manchurian leader, and Peking troops in General Chang's attempt to take over the central government of China, was in progress today on the Jehol front, according to an announcement from the Mukden headquarters of Chang's army. The same announcement told of the capture of Chihfeng, 150 miles north of Jehol, by Mukden troops. One hundred thousand dollars, Mexican, has been offered by General Chang for the heads of either President Tsao Kun, of China, or of General Wu Peifu, and \$200,000 Mexican for the capture of either alive, according to the Nishi Nishi correspondent.

The offer by General Chang was made after advices were received in Mukden from Peking that President Tsao had declared General Chang a bandit and a traitor and had offered a reward to anyone who would turn him over to the government.

The Jiji Shimpo's Mukden correspondent said that General Chang in an interview had charged that Americans favored the Peking government in the present conflict.

"This shows my defeat would be tantamount to Japan's defeat," said General Chang, referring to alleged American partiality to his rivals. "I am sure the efforts of my rival, General Wu Pei-fu to gain the sympathy of Japan will fail in view of his close association with the United States."

## DANVILLE'S GREAT ANNUAL EVENT

There is no day in the year of greater meaning and importance to Danville than that on which the tobacco warehouses open their doors for the selling season. It is always during the marketing months that Danville hits its stride of normalcy and it is readily understood why the opening of the season is looked forward to as a telling event in the community's annual life. This year it means perhaps more than in other years when the channels of industry have been replenished through the constant operation of the textile mills. It has been a lean summer and the community looks with hope to the quickening influence of the stream of tobacco which will during the coming months will flow towards this city.

We take this occasion to join heartily in the welcome accorded all visiting farmers by the Chamber of Commerce as the new season begins. It is not however, a welcome based upon greed nor upon the expected emoluments which come with any tobacco season but on the sincere belief that the bonds of amity between county and city should be strengthened, since the fate of each is inseparably bound, and neither can succeed without each other. We believe that a better spirit prevails today than has for some years and that during recent months sufficient evidence has been given of Danville's desire to serve the farming class as a whole without plunging into the complexities of rival systems of disposing of tobacco. That, as we have said frequently before, is primarily a question for the tobacco grower himself to determine. Danville's task has been to offer facilities for each class and to show that it is less interested in what might be termed factionalism than the deal of the farmers in its broader sense, and the cultivation of that friendly relationship which rightly belongs at the point where the grower establishes contact with the marts of trade.

## "BE SQUARE"

William Byron Forbush has recently published a new book. It is a little, 85-cent affair, but it is one of the most significant and pregnant publications of this modern moment. The theme and plot of the book is dishonesty and its price. Its moral is its title, "Be Square." Stock frauds, land frauds and confidence games cost us each year, Mr. Forbush shows, \$2,000,000,000. Burglary and theft \$250,000,000, embezzlement and defalcations \$125,000,000, graft and looting of public domain \$200,000,000, fraudulent bankruptcy and credit swindles \$100,000,000, bad debts owing merchants \$150,000,000, forgery and worthless checks \$125,000,000, piracy and seaport robbery \$75,000,000—a grand, gloomy total of \$2,369,000,000.

Add to this the \$5,000,000,000 we pay for police, courts, jails, prisons, etc., and we know that dishonesty costs us \$2,869,000,000 a year, a sum sufficient to pay current expenses of any three governments—enough to thoroughly educate every child in the country.

Appalling figures, but they do not tell the whole story even at that. Dishonesty is increasing. Before the war the insurance companies estimated that there were

# TODAY'S TALK

By GEORGE MATTHEW ADAMS.

## The Flapper Mother

A mother has written me about bobbed hair deploring, as she says, its effect upon the future generation.

There is nothing to be concerned about. Bobbed hair makes neither good nor bad mothers. If anything, I am inclined to think that it makes for a more healthy mother.

There is no more special reason why women should wear long hair than there is that men should. Men used to wear their hair long.

For one I welcome bobbed hair for the reason that it looks comfortable and is undoubtedly a healthy way to treat the hair, regardless of the fact that the poet has so much to say about the glory of a woman being in her hair.

But as for bobbed hair making for poor mothers I do not believe it.

A few days ago, while traveling on the train, a young woman came into the car with bobbed hair. She did not look to be more than 20 years of age. Yet she was the mother of two beautiful children. And the way she hid their faces in that bobbed hair and let tiny kisses play within it would have killed every thought that bobbed hair makes poor mothers.

We had good mothers when bustles were in style, and hoop skirts, and puffed sleeves.

Motherhood is born. It isn't a style or a vogue. It's that natural sleeping beauty of mind and heart that is planted in a woman's soul when she is born.

No coming or passing whim of taste or style or habit is able to destroy that which a mother is by birth.

And women are not growing wiser any more than men are. Their greater freedom will make them better able to cope with the cruel thrusts of the world.

"Flapperism" as a term and popular whim of the day will pass. Then there will be something else to take its place. And the world will walk right on, probably better off than ever.

three burglaries to one fire; today there are seven. In 10 years, the ratio of automobile thefts to the total valuation has increased over five times.

Surety companies today are paying six times as much for embezzlements and 12 times as much for burglaries as was true 10 years ago.

And, think of the worthless goods sold, the thousands of articles lost and found that are never returned, the cheating in examinations at schools and colleges, the vast number of petty deceptions that are practiced in all the walks of life and which are not tabulated!

Depressing? Yes. Depressing enough to invite reaction—to challenge men and women and children to revolt and battle for right.

Back of every offense, shortcoming, crime, one or all, there are human beings. "Aftermath of war," "movies," "prohibition," and all the other stock explanations for evil movements and conditions are piffle.

They are resorts, not causes. There is sorrow, of course, and charity, but there is no mitigation for dishonesty, no extenuation for being a cheat.

The easiest, most natural and very finest answer to all the demands and problems of life—the answer that best meets all moral questions of humanity—is, "Be Square."

## TOO MUCH MONEY

The primary election law of New Jersey fixes the generous maximum of \$50,000 as the amount a candidate for United States senator may spend. Statements filed on the eve of the primary showed that Senator Walter E. Edge raised exactly \$50,000, to wage his successful campaign for the Republican nomination. The total salary of a senator for a six-year term at \$7,500 is \$45,000.

The United States statutes fix a much smaller maximum for primary election expenses. But Mr. Edge, relying doubtless on the supreme court decision in the Newberry case, ignored the limits which congress had said should govern congressional campaign expenses.

Mr. Edge is a conservative Republican. He believes congress should not overrule the supreme court, and secure in that belief he spends his funds lavishly.

But Mr. Edge forgets that the people can over-rule the effect of a supreme court decision. And have.

In the Newberry case, his people of a dozen states reviewed the decision subsequently and with exceptions decided that the Newberry senators should not return. Mr. Edge will face the people of his state in November. Success bought at the primary does not necessarily mean victory in the final balloting.

The most pitiful persons on a dining car is the man who likes to drink out of his saucer.

Reports from the various camps indicate we will have three presidentialists next time.

## THE REFEREE

By Albert Apple

## WESTWARD

The east is slowly but surely losing its industrial importance. Atlantic coast states still produce a trifle more than a half of the nation's manufactured goods. But the Mississippi Valley, which in 1850 turned out only 19 per cent. of American manufacturers, had risen to 41 per cent. in 1921. This was shown by the industrial census. The figure has risen. The Pacific coast's share is mounting swiftly.

Nothing can stop this shifting. The course of civilization is always westward, following the sunset.

## WALKING

People are buying fewer shoes. In six months, sales of the country over a 20 million pairs less than in the corresponding months of 1923. The shoe trade thinks consumers are economizing.

The real reason is that people are walking less, riding more in autos. This makes less business for the shoe factories, but more for the doctors and undertakers. The body cannot function properly unless exercised.

## DARKNESS

Marconi and others debate why radio performs better at night. One theory is that sunlight absorbs much of the strength of the waves. At any rate, darkness admittedly is a better medium than light.

On the other hand, scientists scoff when it is claimed that psychic phenomena is at its best in the darkness. If true of radio, why not of other vibrations known hazily as psychics for want of a better understanding?

## JILTED

A western woman, inmate of a poorhouse, jilted a suitor worth \$50,000. Doctors scratched their head and brought her before a board to test her sanity.

Have we, in our materialism and vicious competition actually reached the point where any one who rejects money, though in dire need, is to have sanity challenged? Majority of Americans already have a recognized form of insanity—"pecuniary horridity," a higher name for "displaying ability to pay."

## RICHEST

The richest boy in Europe, young Duke of Norfolk in England, 18, is heir to \$5 million dollars.

News pictures show him in an overgrown romper suit of shaggy velvet with Queen Anne collar—an outfit that a red-blooded American boy wouldn't wear for \$5 millions, except to masquerade.

Consider what this pampered lad is missing. By a good many standards he is the poorest boy in the world rather than richest.

A Tom Sawyer boyhood is worth \$5 millions to any lad.

He hums! This Chinese war is shouting our alphabet for a row of glass dressing rooms.

The Chinese soldiers marched on Hang Chow, reminding us of our war when we marched on no Chow.

A bunch of seashell Chinese must have named that town of Hang Chow.

The worst fighting in the Chinese war, however, seems to center around the province of Tsingtao.

A big railroad lost \$25,000 on its dining cars last year, but we don't see how.

# JUST FOLKS

By EDGAR A. GUEST.

## Silence

The silence has a language of its own

And whispers thoughts beyond the gift of pen

Words never uttered by the lips of men

Or found in any books that I have known

Strange messages which come to man alone

And hint of worlds beyond our mortal ken

Spoken so softly he scarce hears, and then

Lost in the babble of life's harsher

Who gives an hour to silence, hands at rest

His mind released from petty cares and fear

Will have a mystic counselor for his

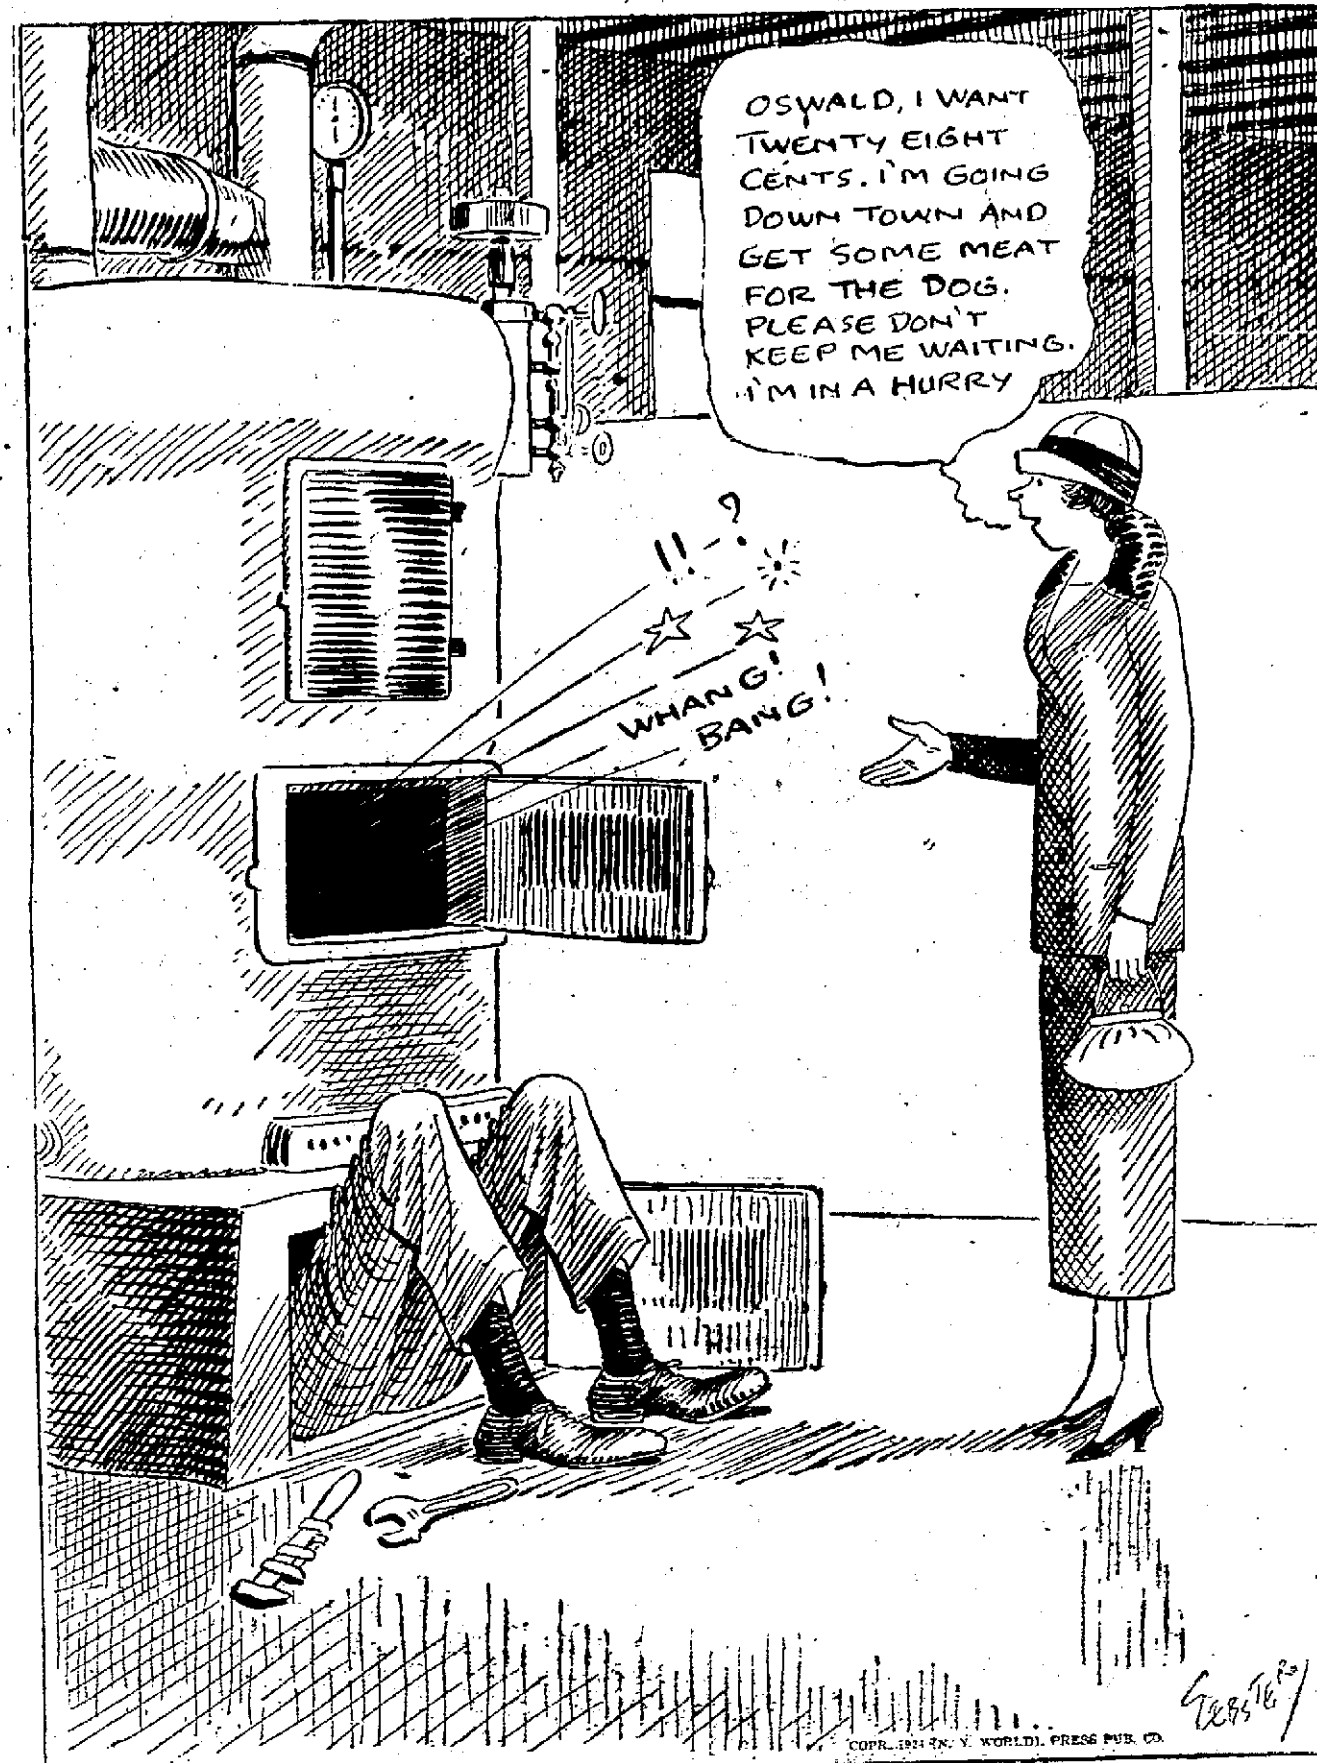

Whose speech is lost upon the common ear

Unto his soul all nature will recite

Poems of beauty Milton couldn't write

(Copyright, 1924)

## Picture of a Man Dislodging a Clinker

# With ROOSEVELT IN AFRICA

by W. Robert Foran  
© 1924 NEA Service Inc.

## SYNOPSIS

Robert Foran, newspaper correspondent, accompanies the Theodore Roosevelt expedition into Africa in 1909. They arrive at Mombasa, the gateway to the interior, and make the railroad journey to their first camp on the game-crowded Kapiti Plains.

After a wonderfully successful shooting trip in the Sotik country, the expedition camps for continued hunting at a farm called Saigai-Sai.

After several other trips they invade the Guaso Nyero elephant country and make their last long safari into the banks of the Nzozi River. Now they return to Londiani.

## NEW GO ON WITH THE STORY

Heller was the next to come in to Londiani. He was also in fine fettle and greatly browed by the tropical sun. He was, as usual, calm and indifferent to all the bustling and waiting on around him, and was only waiting for the arrival of the native porters to see to the proper preservation of a fine roan antelope which had been recently shot.

Shortly after this the long stream of porters came winding across the valley toward the railroad depot, looking from the distance for all the world like a string of ants.

At their head waved the huge American flag that never had left the expedition during all its many jouneyings through the wilderness.

A number of these happy black children, dressed in their best, were made out of pieces of wood, bamboo and even goat's horns. Others were chanting a safari song in praise of Bwana Mkuhwa (The great chief).

Their hilarity and noise were a certain sign that they had enjoyed their long safari in the Uasin Guisho and were yet glad to be back in civilization.

That evening the train which he told them that each would receive in Nairobi, in addition to a salary due to them a cash bonus as a present from Bwana Mkuhwa.

Thereupon the native porters gave three cheers for "King ya Amerika," and showed very unmistakably, in many ways peculiar to the African native, that they possessed a strong feeling of affection for Roosevelt.

They threw their hands in the air and danced like so many school children granted an unexpected holiday, and then began to sing a refrain in which we caught many expressions of their respect for the courage of Bwana Mkuhwa and Bwana Mdo.

To the sound of much cheering the porters entrained. As the freight train swung around a curve, they were all leaning out and waving their hands.

"Kwa heri Bwana Mkuhwa! Good-bye, Great Chief," came the distant shouting from the train. And then

spearing lions. "I will tell you all about it later on," said Colonel Roosevelt, "for it's a bulky story and—"

He broke off suddenly as he caught sight of Cunningham, who had been in a freight van loading sores and specimens.

"Hullo, 'R. J.'—Hali gani wewe? (How are you?) he shouted and then ran forward eagerly with outstretched hands to greet Cunningham.

As they shook hands, and when the smiling Roosevelt affectionately patted Cunningham on the back, it was easy to see how great was the love and esteem the colonel had for his black-bearded and efficient guide and safari manager.

The loads of the expedition were quickly placed on the train, the horses entrained, and the porters were ready to climb aboard. Before

it passed from sight, Colonel Roosevelt's face was sad when he turned away.

"They are really fine people," he said, softly. "I am real sorry to part with them."

Chapter XXI  
The Last Safaris in East Africa

Colonel Roosevelt, Kermit Cunningham and myself had decided to travel down to Lord Delamere's farm at Njoro by the ordinary passenger train so as to save time.

It was fortunate that there was a train that afternoon proceeding to Nairobi. The special saloon coach was, therefore, attached to this train on its arrival at Londiani; and away we started.

Our train was stopped in the darkness at a level crossing some five miles above Njoro, and here we found Lord Delamere waiting for his guests.

Roosevelt and Kermit had their baggage placed on a mule, while I, with natives carrying lanterns, Lord Delamere led the way toward his farm, where Lady Delamere was waiting their arrival.

The ranch house was only a mile and a half from our halting place, but as the country is full of lions, it is not pleasant to walk that short distance.

The Roosevelts were the guests of the Delameres for about 10 days. They hoped to get some specimens of the rare bongo and the even more rare giant pig, neither of which animals is rarely ever seen by Europeans.

Next morning Kermit went off into the bamboo forests and camped with the Hon. Berkeley Cole.

A SAFARI EMERGING FROM THE TANGLED UNDERGROWTH INTO A CLEARING.

They did so, however, they all formed up on the platform before Colonel Roosevelt.

With Leslie Tarleton as an interpreter, Colonel Roosevelt walked down that long line, shook hands with each native porter and thanked each one individually for his loyal service. Then he made a short address to them, his words being translated into Kiswahili by Tarleton.

As they told them that each would receive in Nairobi, in addition to a salary due to them a cash bonus as a present from Bwana Mkuhwa.

Thereupon the native porters gave three cheers for "King ya Amerika," and showed very unmistakably, in many ways peculiar to the African native, that they possessed a strong feeling of affection for Roosevelt.

They threw their hands in the air and danced like so many school children granted an unexpected holiday, and then began to sing a refrain in which we caught many expressions of their respect for the courage of Bwana Mkuhwa and Bwana Mdo.

## Scoop's Colyum

DRAKES BRANCH, October 1—(Grapevine wireless.)—As Mrs. Noah remarked when the laundry came home on that first gloomy Friday, "As ye sew, so shall ye rip." And again, when General O'Hara received General Cornwallis' sword at Yorktown, he turned to Major Hoope and observed, "Chickens come home to roost." These sayings have been handed down even unto Chickens school. Modern version:

A minister's wife was busy repairing clothes when a neighbor called. After some general gossip the visitor, inspecting the miscellaneous contents of a button basket, remarked, "You seem to be unusually well supplied with buttons of all kinds. Why, there's one like my husband had on his last winter's suit."

"Indeed," said the minister's wife, with a smile, "Well, all these buttons were found in the collection bags, and I thought I might as well make use of them. What? Must you go? Well, good-bye. Come again soon."

Since telling this one at the Star barber shop, Col. Bill Keeling has not been seen on this side of the river.

"Seven years ago a farmer boy hung his vest on the fence in the barnyard. A cat chewed up the vest, in the pocket of which was a gold watch. Not long ago the animal, an old milk cow, was butchered for beef and the watch was found lodged in a position between the cow's lungs, that the cow's breathing had kept the watch wound up, and the watch had lost but four minutes in seven years."

Pinhookers working hypothesis: Scrap the scrap and save the leaf!

King Edward's Kindly Tact. No one knew better how to surmount an awkward situation than the late King Edward. The Prince of Wales, as he was then, was giving a dinner party in honor of a banker officer who had been awarded the V. C. for conspicuous gallantry in the field. At first the guest of honor was a little ill at ease. But under the influence of the Prince's genial manner and conversation he soon lost his shyness and all went well until the arrival of dessert. When the finger-bowl were placed on the table the newly-decorated officer, doubtless more accustomed to fighting on the field than to the niceties of the ritual of a dinner-party, raised the finger-bowl of scented water to his lips and started to drink. An ill-timed snigger from a junior officer called the Prince's attention to the contretemps.

Quickly he sprang to his feet, raised his finger-bowl to his lips, and said: "Gentlemen, the Queen!"

From a school examination paper: Question: "Why are the Turks considered brave?" Answer: "Because a man with two wives will face death more willingly than a man with one!"

A kick in the punch is worth two in the pants.

Kind Lady—What is your name, little boy? Boy—Joshua Shadrach Lemel Totts.

Kind Lady—Well, well, who gave you that name?

Boy—I dunno yet, but I'll find out some day.</

GA. COTTON CO-OP  
ASS'N FLOURISHES

RICHMOND, Sept. 30.—More than \$10,000,000 worth of business was done by the Georgia Cotton Growers' Co-operative association, according to information from a Federal report. The association is now entering the business of the crop of 1924 in a stronger position than it has previously had.

With the final payment in July of \$1,232,000, the 1923 pool was closed. It is reported that 71,000 bales were handled of that year's crop in 75 pools. The highest price brought by any pool was 35.95 cents per pound while the average price was a little over 27.50 cents. For the 1922 crop the farmer is reported to have received an average of 22 cents. The cotton was sold and the producer paid strictly on the basis of grades.

From a membership of 13,000 two years ago there are approximately 42,000 members at present. Improvements made in the organization as reported by the president include better financial arrangements; reduced insurance rates; better warehousing arrangements; improvement in the grading department and office force; and a much better crop of cotton than there was last year.

## VIRGINIA BRIEFS

LEESBURG, Va., Sept. 30.—Apple packing is swinging into season size here, according to officials of the Loudoun county Fruit Growers Association. Merchants predict good autumn business, it was said.

RICHMOND, Va., Sept. 30.—Aside from the regular athletic program interest, much attention is being paid by Richmond University students to "hiking" which is proving a popular general sport, according to reports from the institution.

RICHMOND, Va., Sept. 30.—Virginia apples are moving to English markets in a rapid stream, according to reports of exporting houses here. Liverpool is said to be the largest bidder for the fruit, receiving about a third of the shipments.

LYNCHBURG, Va., Sept. 30.—Chestnut blight is very prevalent in this section where it is estimated that 75 per cent of the trees are affected.

RICHMOND, Va., Sept. 30.—The peanut market is almost as a standstill, according to local buyers. Lack of general demand is the cause assigned for the inactivity in the market.

Distress  
After Eating

Such as gasiness, bloating, belching, sour risings, heartburn and heaviness, due to indigestion, are but the stomach cravings for

STUART'S  
Dyspepsia Tablets

They sweeten the stomach, take up the sour accumulations, give the stomach an alkaline effect that settles it to rest and digestion. You then learn you may eat peaches, pickles, milk, fried eggs, bacon, onions, sausage and backwheat and these tablets always save you from distress.

AT ALL DRUGGISTS

## ECZEMA

Money back without question. HUNT'S GUARANTEED SKIN DISEASE REMEDY. (Hunt's Salve) is a complete cure in the treatment of eczema, Ringworm, Tetter, or other skin diseases. Try this treatment at our risk.

Frank McCall's drug store, 238 Main St.

GOT THE REAL THING

"For five long years I suffered with stomach trouble and what the doctors called gall stone colic and all said nothing but an operation would do me any good. A friend who had taken your medicine advised me to try it, and I found it to be the real thing. I feel better than I have in eight years and I am praising God for May's Wonderful Remedy." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allows the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. J. C. McCall's Drug and Seed Store and druggists everywhere.—adv.

MRS. DAVIS RECOVERS STRENGTH

The following statement contained in a letter from Mrs. Alice Davis of Joppatown, N. Y., should bring hope to other women who are in the same condition she was. She says: "I was nervous and weak with pains in my back, no ambition, and utter discouragement, and could not sit up all the time. Lydia E. Pinkham's Vegetable Compound restored my health and strength so I am now running a rooming house and do all the work." Lydia E. Pinkham's Vegetable Compound is pre-eminent successful in overcoming such troubles and it will pay any suffering woman to try it.—adv.

## Corns

Lift Off—No Pain!

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot calms, without soreness or irritation.

NEW YORK CITY  
HAVING ANNUAL  
FIRE SCARE NOWFrightful Pictures of Probable  
Holocaust in Lower  
Metropolis Painted

By ROBERT T. SMALL

(Copyright, 1924, by The Bee)  
NEW YORK, Sept. 30.—New York is having its annual fire scare and this year it is a particularly bad one. Ever since the lower type of Manhattan Island became a congested mass of skyscrapers and canyon-like streets, the fire chiefs of the city have had the nightmare of an explosive fire spreading across the island at Canal street or below and cutting off the two million persons daily employed in the business life of the lower metropolis. How this terrible panic multiplies itself is shown in the pictures of fire if it should sweep on southward to the Battery is more than anyone has ever been able to figure out.

Frightful pictures have been drawn of the probable holocaust, with thousands of people being driven into the waters of the East and North Rivers. The East River bridges leading to Brooklyn offer at least two avenues of escape from a fire starting close to the City Hall, but for any conflagration spreading suddenly south of that point the means of egress are limited to three underground ferries and a few municipal ground railroads and a few private railroads. The ferries would be swamped in the first rush, and the railroads would be crushed through the thin roofs. The ferries would be swamped in the first rush, and the railroads would be crushed through the thin roofs.

Fire Chief Kenyon is very earnest in his warnings of the city of what might happen. At the moment his chief concern is about traffic conditions in the street. Not until within the last few months has New York City had a real anti-parking law for automobiles. It had been the custom to let machines stop where they would as long as there was no interference with main arteries of traffic.

Now that the new law is in effect, one seems to pay much attention to it. The traffic court was jammed one day this week with more than one thousand offenders. So great was the crush of "criminals" that a panic in the courtroom might have occurred. Some of the offenders were fined \$100. There was a scream and a pell-mell rush for the doors. Police reserves were called out and hurry messages were sent for additional magistrates to occupy the court.

Eventually the courtroom was cleared and then the offenders had to form in line outside and await their turn at the bar.

The thousand of arrests, however, have not seemed to lessen the congestion of standing cars in the downtown districts. The fire chief believes that in any sudden emergency the department would be so impeded in its work by the jam of automobiles as to make the long feat of escape in effect impossible. Chief Kenyon also fears that a sudden blast of flame from a building might easily explode the gasoline tanks of automobiles parked in front of it. The resulting fire would spread to other automobiles and buildings and would spread the situation beyond all human control. The chief cites always the rapid spread of the Baltimore fire some twenty years ago. A similar rush of flame across the lower end of the island would make the wild night terrors of the department chiefs a shocking reality.

Fire in the theatrical district at night is another of the city's terrors. As fire prevention week approaches, as fire prevention week approaches, about to begin their performances and again as the crowds pour out, the district, running from Columbus Circle on the north to Thirty-Sixth on the south, is a tangled mass of traffic. The jams are impenetrable for minutes at a time despite the best efforts of the police. At such a time the fire department would be helpless. Machines would have to be abandoned and left to block the streets in a mass of burned wreckage.

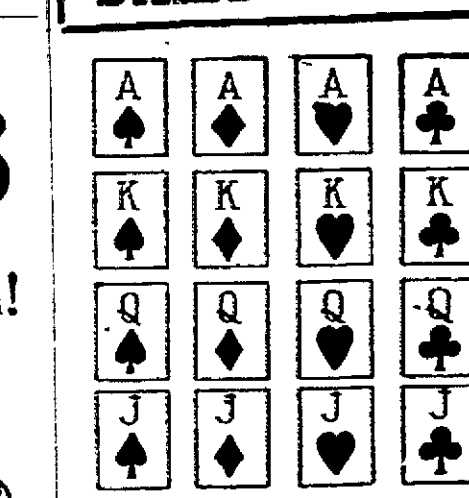

Of course the typical New Yorker says nothing like that will ever happen. He said prohibition never would come. But the fire heads spend many restless hours brooding on the possibilities. The city is to be made aroused and every effort is to be made to clear the streets of standing cars.

TEX RICKARD LOST  
ON FIRPO FIGHT

(By The Associated Press.)  
TRENTON, N. J., Sept. 30.—Tex Rickard lost \$5,005 in promoting the Willis-Firpo fight in Jersey City, according to a statement filed today with State Comptroller Newton B. Engle, who also is State athletic commissioner. Total expenditures as set forth by Rickard for the income were \$467,555 and the net income was \$462,550. Firpo received \$155,211 as his share of the receipts and \$150,000.

The federal tax was \$46,285 and the State tax an equal amount.

## DAILY PUZZLE

Here are the face cards of a pack, laid in four rows. Notice the row running diagonally from upper left to lower right. It runs Ace of spades, king of diamonds, queen of hearts, jack of club. It contains no two cards of the same value (like two aces), nor of the same suit (as two hearts).

Can you rearrange the cards so that NO row, vertical, horizontal or diagonal, contains two cards alike in suit or value?

Yesterday's answer: MALEVOLENT.

The word "malevolent" may be formed by arranging the letters of the sentence LET MAN LOVE.

## REPORTER EXPLORES WASHINGTON TUNNEL

THE ENTRANCE TO THE WASHINGTON TUNNELS (LEFT) AND INTERIOR VIEW.

By LARRY BOARDMAN

WASHINGTON, Oct. 1.—All sorts of fancies suggested themselves as I stood at the mouth of the tunnels which have been discovered under Washington streets—spies, drug addicts, bootleggers, robbers.

Mystery fairly oozed out as I oozed in. A motor truck wheel had crashed through the earth and opened a gaping hole. I climbed down. The feeble flicker of a flashlight revealed walls of white enameled brick, perfectly laid.

The floor was of earth. On the ceiling were stuck newspapers of the war years 1917 and 1918. They were German papers and carried accounts of Germany's submarine activities. Cryptic marks and symbols marked the pages, suggesting a code.

Tunnel Wired

Walking ahead with the tiny light marking a direct golden line, I stumbled over a heap of glass—hundreds of bottles, smashed into bits of all sizes.

From the top wall hung electric lights. I tried them. They were all dead.

The passageway along which I found myself walking was large enough for two persons to walk abreast. Then it suddenly narrowed and I had to get down upon all fours, and I had to reach a widened space ahead.

Here it split into four labyrinthine hallways I followed each.

One ended within a few hundred feet of the home of Lars Anderson, former ambassador to Japan, another ended the stables of E. B. McLean, millionaire publisher.

My feeble light barely penetrated the darkness here and I stumbled against the passage end. Here a third hallway to find it ending at the basement of a house. Again the passageway had been cemented, then a second door also cemented and yet another which led to the basement. The house owner said he had never explored it.

Running Water Near  
One of the labyrinth outlets is beneath a flight of stairs leading to a sunken garden well hidden. There was a rumor that still another wandered under the city and entire mile to Rock Creek Park.

I returned to what appeared the main passageway. There I stumbled upon a trap door. Lifting it up, a door had been filled in and two hours of digging revealed merely a bit of cement arch.

Letting my flash light about the sides of the wall I discovered an aperture too small to enter, but through which came the sound of running water, as though some subterranean stream flowed close by.

A damp, earthy smell pervaded this section. The air of mystery seemed fairly to close in. I started back for the opening from whence I had started, only to find it wasn't where I had thought it. Instead I was in another passage and here was a pile of debris with more bottles and pieces of iron.

Mystery Partly Cleared  
I rushed along blind alleys, leading now this way and now that I tried to squeeze through openings too small for my body. It seemed that the labyrinth must cover miles of space.

At last, a welcome flicker of light from above! I followed it and found myself back at the tunnels' mouth.

Much of what mystified me has since been cleared by the story of Harrison G. Dear, a twinkling-eyed, stooped-shouldered scientist, with carefully trimmed beard and gray-tinted hair.

He played goffer, he said, as golf lures others. The idea of the tunnel came to him while he was making a garden, and finding it good exercise and amusing he kept it up at spare times year after year, getting the bricks for the walls from a pile left over when the McLean barn was built and dumping the dirt in a vacant lot.

This much of the mystery seems to be cleared, but it does not answer the question of who has tenanted the tunnels since.

SATURDAY LAST DAY FOR REGISTRATION

Next Saturday, October 4th, is the last day for registration in order to vote in the election on Tuesday, November 4th.

Every man or woman otherwise qualified to vote who has never registered, or who has failed to transfer, may do so TODAY, tomorrow, Friday or Saturday.

Today is the best time. See the registrar at the ward in which you live, make application for registration, and get on the voting list.

Become a voter, stay one—and then VOTE!

GILBERT LOCAL TO MEET

The Gilbert Local T. G. C. A., will meet Friday night, October 31st, 1924 at the Ferguson school. All members are requested to attend.

# Washington Outfield Stronger Than That of Giants

## NEW CHAMPIONS IN FINAL GAME FARCE

(By The Associated Press.)  
BOSTON, Sept. 30.—Boston finished in seventh place today by beating the pennant-winning Washington Senators 13 to 1, in a game which showed that the latter harbored no grudge against Boston for having delayed the finish by taking the first of the final series here.  
Nick Altrock, Washington's down-coach, delighted the fans by holding the home team to one run while he had possession of the mound in the final two innings, and then he capped the day by scoring the lone Washington run after hitting a "remarkable" three-bagger.  
Score:  
Washington . . . 000 000 010—1 9 7  
Boston . . . 101 406 01X—13 16 0  
Speece, Altrock and Ruel, Tate, Hargrave, Ferguson, Ehmke and O'Neill.

## CHICAGO SQUAD HOME FOR SEVEN GRID TILTS

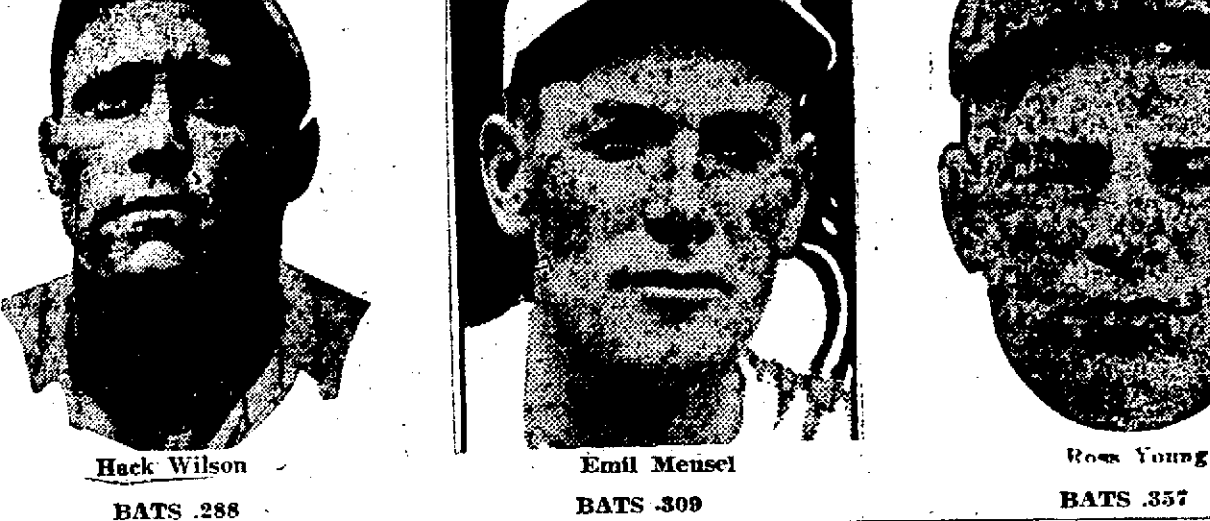

(By NEA Service.)  
CHICAGO, Sept. 30.—Yale, Harvard and Princeton have long been known for their apparent unwillingness to play anything but "at home" football games. They must play hosts to teams outside of the "Big Three" or they don't want to perform at all. In other words, the Bulldogs, Crimson and Tiger don't care a rap about traveling.  
In the middle west this season there is a team which will emulate the elite division in the "own backyard" respect. It is Chicago. The Maroons will stage eight games this fall. All but one of them will be waged on Stagg field. Ohio State will be met at Columbus, but Missouri, Brown, Indiana, Purdue, Illinois, Northwestern and Wisconsin are booked to appear on the Maroons' own lot. For Chicago, it is indeed a nice schedule.  
Chicago, however, has more reason to look "at home" tilts than Yale, Harvard and Princeton. Chicago is ideally located. It is virtually in the center of the Western Conference area. Its size, location, tend to make it the best place in its section in the matter of drawing mammoth crowds.  
AMERICAN.  
Boston 13; Washington 1.  
Philadelphia-New York, rain.  
Only games scheduled.

## This Outfield of Bucky Harris' Senators Outclass

Leon Goslin BATS .343 Sam Rice BATS .336 Earl McNeely BATS .328

## This Trio of McGraw's Outergardeners in Batting

Hack Wilson BATS .288 Emil Meusel BATS .309 Ross Youngs BATS .357

## GOSLIN-M'NEELY-RICE HAVE ADVANTAGE OVER MEUSEL-WILSON-YOUNG

(By The Associated Press.)  
NEW YORK, Oct. 1.—While the New York Giants enjoy a distinct advantage over their world's series opponents, the Washington Senators, in the infield, quite the reverse is true in the outfield, according to the official figure for the past season.  
The Goslin-McNeely-Rice combination in the Washington outfield but at a .336 clip while the Meusel-Wilson-Young trio nearest to a regular array McGraw has had—has an average of but .318. Each club has a youngster sandwiched in between two grizzled veterans, but these two youngsters, McNeely and Wilson, have played sensationally.  
There is a probability that John McGraw will shift his outfield to suit the occasion and thus averages will be juggled up somewhat but the best combination McGraw can place in the outfield will trail any combination which Stanley Harris can call on.  
Inch Meusel's batting slump and the failure of Billy Southworth to come up to expectations caused McGraw to juggle his outer works this season. "Pop" Young, in right field is the only fixture. Against right-handed pitching, McGraw probably will use Wilson in left and George Kelly, regular first sacker, in center. Against southpaw curving, Wilson will be in center and Meusel in left. Jimmy O'Connell, the \$75,000 Pacific coast "beauty" also is a centerfielder.  
Harris will bank on his regular but he has one good utility man in Nemo Leibold, who came to the Senators from the White Sox.

## SAYS OLD PARTIES ARE DESPERATE

(By The Associated Press.)  
WASHINGTON, Sept. 30.—Senator Robert M. La Follette, independent presidential candidate, declared in a statement tonight that "the refusal of the attorney general of Louisiana to place the names of the La Follette-Wheeler electors on the ballot in that state, and the definite report that comes from Michigan that legal technicalities are to be used there by the two political machines to accomplish the same purpose, show how desperate the reactionaries in both of the old parties consider their cause."  
"The legal arms of the government which should be the most potent factors in helping the people to express their will freely at the polls," continued the senator's statement, "is instinctively being appealed to by the reactionary forces which dominate the two old parties to help defeat their free expression."  
"But all of these efforts will eventually fail of their purpose. These attempts to deprive the people of the ballot box of the utmost freedom of choice as to who shall exercise their delegated authority will react most disastrously against those guilty of trying to prevent the fullest expression of the people's will."

## Nationals' Park Too Small Take Care of Crowds

(By The Associated Press.)  
NEW YORK, Sept. 30.—Washington's sensational victory in the American league has stirred baseball fandom to unprecedented enthusiasm in the fight which the Senators will start for the world's championship with the New York Giants next Saturday in the national capital.  
Officials of each club after a long conference today with Commissioner Kennesaw Mountain Landis, disclosed that they were being flooded with requests for reservations from all parts of the country. The commissioner, who came to the city with Charles A. Stoneham, of the Giants, and Secretary E. B. Eynon, jr., of the Senators, to perfect arrangements for the series, also voiced his opinion that "unparalleled interest is being shown."  
Only the fact that Washington's American league park is unable to match the capacity of the Yankee stadium will prevent the shattering of the record for attendance and receipts established in the million dollar series of 1923, officials declared.  
"All of Washington, most of Maryland, Virginia and other parts of the south want to see the Senators battle the Giants," declared Mr. Eynon, "and our club faces a formidable task in trying to squeeze the multitude of ticket seekers into space which probably will be limited to \$1.00 even with the additions we will provide."  
Commissioner Landis displayed characteristic enthusiasm over the prospect for the series which, he predicted, would be a "stunning series." He left for Washington this afternoon to take part in the homecoming celebration planned in the capital for the Senators tomorrow.  
Wall Street's interest in the forthcoming series will be classic was shown today in reports of wagering on the outcome, with even money generally prevailing. Several wagers were reported, however, with the Senators at slight favorites, in one instance \$1.00 to \$1.50.  
The gray-headed commissioner fact sticks to neutrally, but warning up to the outlook today, he predicted, "it would be a 'stunning series.'" He left for Washington this afternoon to take part in the homecoming celebration planned in the capital for the Senators tomorrow.

## DARK FIRED TOBACCO PRODUCTION SMALLER

RICHMOND, Va., Sept. 30.—Dark fired tobacco in Virginia will show a smaller production for this year than for 1923 according to a survey being conducted by the field agents of the American Tobacco Growers' Association, declared Farrar Shelton, in charge of field service in Virginia.  
It was pointed out by Mr. Shelton that the growing districts show a lighter crop than others that all are nearly the same, showing for the whole district an estimated production of 33.8 per cent. of the crop of 1923.  
The counties included in this estimate are Fluvanna, Amelia, Dinwiddie, Nottoway, Prince Edward, Cumberland, Buckingham, Appomattox, Campbell, Amherst, Nelson, and Bedford.

## D. M. I. TIGERS TO PLAY MARTINSVILLE HERE

Coaches Carmichael and Fray, of the Danville Military Institute football squad, have now worked more than two weeks in the effort to drill and develop team-work among the thirty candidates for the team. Seven letter-men of the 1923 team are back at the Institute as a nucleus for the 1924 eleven. Considerable good material is included among the new recruits, and the work of shaping this material into efficiency as a team is steadily progressing, and the men are working earnestly not only to make the team but to make it a winning combination. The weather and the condition of the grounds have handicapped the coaches and forced the abandonment of out-door practice for several days, but yesterday the players were able to get into scrimmage work. There will be light workouts by the team on Thursday and Friday in special preparation for the opening game of the season with Martinsville on the Institute campus at 3 P. M. Saturday. Hooper, captain of the 1923 eleven, is leading the squad in this game.

## QUIGLEY AND KLEM TO OFFICATE IN SERIES

(By The Associated Press.)  
NEW YORK, Sept. 30.—Barnes Quigley and William J. Klem, umpires of the National League, will represent the senior circuit in the world's series arbiters staff according to an announcement today by president John A. Heydler.  
PLAN WORLD AIRWAY  
LONDON, Oct. 1.—Plans for a round-the-world airway, with wireless lighthouses and illuminated landing fields at regular intervals along the route, have been drawn up by August Hopper, well known London aviation expert. Mr. Hopper is taking into consideration the experiences of the recent round-the-world flyers.  
Long, Short and Broad were the names of three titants in a London court.

## "I Didn't Win Pennant, But Beat Yanks," Says Cobb, "Got kick Out of That"

(By The Associated Press.)  
RICHMOND, Va., Sept. 30.—"I didn't win the pennant, but I had the consolation of kicking the Yankees out of the race and I got quite a kick out of that," Manager Ty Cobb, of the Detroit Tigers, said here this evening while discussing baseball in general and the American League season just closed in particular.  
"We told the Washington club we were pulling for them," Cobb added, "but that we were going to beat them. We could, and also the Yankees. As you know, we won five out of six from the Senators and the Yankees and finished the season by winning 18 of our last 23 games. At the close of the campaign we were playing the best ball in the American League."  
Cobb came here direct from Chicago where the Tigers closed the season in third place. Tomorrow he is to go to Sandy Point, King William county, where he will hunt sora as the guest of Richmond friends. Returning Friday the great manager, an American League player, plans to go on to Washington where he says he will root for the Senators to win the first two games of the world series.

## CLASSIC PLAYS OF THE GRIDIRON

BY EARLE "GREASY" NEALE  
Football Coach, University of Virginia, Formerly Coach, Washington and Jefferson.  
(Copyright, 1924, NEA Service, Inc.)  
Washington and Jefferson rosters in the stands were crying for the point that meant victory. Entreatings, then demanding. Demanding, entreatings. Yet when the coveted point came, the first expression from the stands was a wall of distress, abruptly converted into a howl of triumph. It is true, but the fact that the first impulse of the intent onlookers was to despair when they should have cheered shows how smooth was the execution of the greatest play I have yet seen in football.  
Lafayette had us beaten 13 to 0 at the end of the first half of our game at the Polo Grounds, New York, in 1922. Late in the second half we tied the score and victory was ours if we could register the extra point after touchdown. It was the effort to score that point that produced the play I am describing.  
We lined up to drop kick for the needed point. But when Kopf had called the signals he noticed the Lafayette secondary defense move up to the line, whereupon he turned to Captain Brenkert and cautioned: "Be sure and make it good." That was the signal to change to a forward pass. So complete was the deception in the play that not a Lafayette man was within 15 yards of Kopf when he caught the ball. And, as I said above, our supporters in the stands thought Brenkert had attempted a kick and failed.  
The week before we had been able to tie the Georgia Tech because under similar circumstances West had kicked a goal, though how he ever did it I don't know, as Tech had brought 10 men into the line in the effort to block his kick. They should have succeeded. That is why the forward pass alternative was conceived.  
"Prot by your mistakes," the moral writers tell us. And by your near-mistakes, I would add. It came near being a mistake for us not to change the play when Carnegie Tech threw all its effort into blocking that kick. We were lucky to score and knew it. So when the situation recurred within a week we were ready. And didn't it pay?

### THE NUT CRACKER

BY JOE WILLIAMS

Babe Ruth never wears underwear. No wonder it's so easy to get under his skin.

To offset the drawbacks of winter is the consolation that long-earned goofs, walking from coast to coast, keep away from newspaper offices.

No player can get along with one shot in tennis any more, says Tilden. Still one shot of the stuff you get nowadays is usually plenty.

Young Teddy is following in his dad's footsteps, and One-Punch O'Goofy hopes he gets a little farther than young Bob Fitzsimmons did.

Rabbit Maranville climbed into the stands to get a fan the other day. Both the Rabbit and the rabbit ball seem hard to handle.

A Chicago grand opera star has taken up boxing. It shouldn't be hard for him to tune up for Dempsey.

Men will soon live to be 200 years old. So don't despair, maybe you will yet be able to get around your course in par.

There is some dispute as to what is the gamest fish in the world. What is the fish who sits through a three-hour wrestling match and demands an encore.

Baseball and politics are much alike. In the spring all the managers win the pennants, and in the fall all the candidates win the election.

Mr. La Follette may be a radical but nobody ever heard him say stymie was a good thing for golf.

Eighty-five men have been dropped from the Harvard eleven. If you are quick at figures, hop on this one.

One reason why young Stribling doesn't fight often is that the calendar makers only put seven days in a week.

## FOUR INTERNATIONAL HORSE RACES IN 1925

(By The Associated Press.)  
NEW YORK, Sept. 30.—Plans for a series of four international horse races in 1925, two to be run in Kentucky and two in New York, have been laid before August Belmont, chairman of the Jockey Club, by Matt J. Winn, general manager of the Kentucky Jockey Club.  
Mr. Winn disclosed that the proposal involves an aggregate purse of \$200,000 for the series, for which the best of Europe's thoroughbreds would be invited to compete with American horses. The races would be run at progressive distances, such as have prevailed in this year's international specials. The first would be at a mile, the second at a mile and a furlong, the third at a mile and a quarter, and the last at a mile and a half.  
The Kentucky turf official proposes to arrange a definite schedule for the races that will not conflict with any of the fixed classics here or abroad.

### "I Didn't Win Pennant, But Beat Yanks," Says Cobb, "Got kick Out of That"

(By The Associated Press.)  
RICHMOND, Va., Sept. 30.—"I didn't win the pennant, but I had the consolation of kicking the Yankees out of the race and I got quite a kick out of that," Manager Ty Cobb, of the Detroit Tigers, said here this evening while discussing baseball in general and the American League season just closed in particular.  
"We told the Washington club we were pulling for them," Cobb added, "but that we were going to beat them. We could, and also the Yankees. As you know, we won five out of six from the Senators and the Yankees and finished the season by winning 18 of our last 23 games. At the close of the campaign we were playing the best ball in the American League."  
Cobb came here direct from Chicago where the Tigers closed the season in third place. Tomorrow he is to go to Sandy Point, King William county, where he will hunt sora as the guest of Richmond friends. Returning Friday the great manager, an American League player, plans to go on to Washington where he says he will root for the Senators to win the first two games of the world series.

"You may quote me as saying that if Walter Johnson pitches on a dark day he'll show the Giants something that they haven't seen often," remarked, "if you'll attempt to pick the winner because so many things can happen in a short series, but I'm pulling for Washington. They are imbued with the competitive spirit and they'll fight hard. Their victory over the Yankees is one of the biggest things in baseball history and will help the game. They will be tough to beat next year."

Speaking of his own club Cobb said "we will be dangerous next season. I have a young ball club, and I'll have better reserves next year. I'll keep Lester Burke as understudy to O'Rourke and will have first baseman Nemo Leibold. In the stock is a silver plate bearing the inscription: 'Presented to Ty Cobb, world's greatest baseball player, by his Philadelphia friends, June 12, 1915'."

# Walter Johnson Will Pitch Opening Game of Series

## CAPITAL FACES PROBLEM WITH ITS SMALL PARK. LANDS IN WASHINGTON

(By The Associated Press)

NEW YORK, Oct. 1.—Neither Washington, Coffeyville, Kas., nor Pittsford, Pa., is allowing the political campaign to interfere with its urban delight in the baseball sensation of the century, the first Washington pennant.

Other cities and towns, glad that these three are happy, look on with friendly glance and prepare with customary alacrity to take part in the celebration by tuning up radios, consulting time-tables and making reservations for tickets. President Coolidge now in training to pitch the first ball and become the subject of descriptive writers and artists, will be the only candidate to edge into the national picture during the week beginning Saturday.

The baseball miracle performed by the Senators has made it necessary for the business officials of the club to perform another marvel if the enthusiasts from all over the south and the entire population of Washington are to be crowded into the 37,000 capacity park on Saturday and Sunday.

Giant officials are palidly stacking up the certified checks and money orders with the knowledge of a 94-cent plant waiting and eager to be flooded with humanity.

Commissioner Landis, in Washington today to watch the conquering heroes return, attended a meeting of officials of the two contending clubs here yesterday at which the necessary business details were discussed. The high lord of baseball judicially predicted a "ripping series."

After the battle the heroes rest, allow themselves to be interviewed and prepare to write masterpieces for the papers about what happens on the field during the series. Dinners are being proffered recklessly. Flags wave in Coffeyville, the home of Wal-

ter Johnson, and in Pittsford, the winter harbor of Stanley Harris.

From points east and west come interviews from men who know these national heroes in lesser days—when Johnson was a struggling engineer and Bucky Harris a boy in a coal mine. They are pointed to as examples for the American youth, who needs no pointers in either case.

Babe Ruth ponders about his loyalty between New York and the American League and describes the feeling of being an outsider; although what Babe does in this series will not be of a nature to thrill the public. Babe will sit in the press box and drive out melancholy home runs with his heavy imagination. The other Yankees will go hunting and leave Ruth as their sole representative at the series. Ty Cobb announced that he had the consolation of kicking the Yankees out if he couldn't win himself.

Even the umpires step up and do their bow. It was announced yesterday that William J. Klein and Ernest Quigley would referee the series. Tom Connolly and William Dineen had previously been selected by the American.

The gamblers, despite the frown of Commissioner Landis, guess that which has departed appreciably from even money.

Nick Altrock, gave the burial of the season a touch of buffoonery yesterday by pitching thirty-two victory pins. Red Sox 13 to 1 victory over Washington—which used a team of many substitutes. The clown of baseball allowed only two hits in two innings, hit a three-bagger and scored his team's only Philadelphia was postponed by rain. The official season in each league is now ended.

## Harris Also Crack Basketball Player

(By The Associated Press)

SCHENECTADY, N. Y., Oct. 1.—Stanley Harris, youthful pilot of the Washington American League club, which Monday earned the right to tackle the New York Giants for the world's baseball title, has other accomplishments besides being a first rate second sacker and a fine ball strategist, according to Louis H. Stolz, of this city, president of the New York state basketball league.

The Senator manager, who is the first pilot to bring a pennant to Washington, also enjoys the distinction of helping Glens Falls win its basketball championship. Harris played a guard position on the Glens Falls quintet last season and it was mainly through his defensive work and clever scoring ability that Glens Falls was able to win the league title. A member of the Philadelphia Athletics, who played basketball with Schenectady in the league, Harris was rated as the best guard in the state circuit.

## Races Are Resumed After 2-Day Delay

(By The Associated Press)

COLUMBUS, O., Oct. 1.—Grand circuit racing was resumed here today after two days idleness because of the water soaked track. The program, which the 2:15 tri-oval race closed with the 2:17 pace also carried the Ohio State Journal 2:06 pace stake and the 2:12 trotting stake.

All racing activities will be halted until after four o'clock when there will be dedicated a bronze tablet to the memory of E. F. "Pop" Geers, who on the Columbus track August 16, 1916, rode his first mile better than the two minutes. Napoleon Direct at that time paced it in 1:55 3-4.

## The Sportsman

By WALTER CAMP

NEW YORK, Oct. 1.—The University of Nebraska is in for a season of terrific football struggles this year, for every team in the Missouri Valley conference has got the idea that Nebraska can be beaten.

The thought of possible victory over Nebraska gained great headway here when Kansas held the Nebraskaans to a nothing to nothing tie and Missouri held them to a 7 to 7 tie.

These teams will be especially at Nebraska's throat this year. Down in the southwest conference, in Texas, the Southern Methodists are going to be threatened in spite of their victory last year. The University of Texas, which finished second last year, is out for a place at the top. Rice Institute, which was way down the list, is out for a place in the upper half of the percentage column, and Baylor and Arkansas are hoping to regain some of their lost honors.

The Rocky Mountain conference championship of which was won last season by University of Colorado, has ten teams all presumably in the running.

## Shifting Team Won For McGraw

NEW YORK, Oct. 1.—John McGraw's record-breaking achievement of winning four consecutive pennants was accomplished with a shifting personnel. Only seven of the present playing Giants were members of the club which won the first of the pennants in 1921. They are Captain Frank Frisch, George Kelly, Bill Ryan, Arthur Russell, John M. Young, Irish Meuse and Frank Snyder.

## WASHINGTON IS ALL SET FOR ROUSING RECEPTION TO HER CHAMPION TEAM

(By The Associated Press)

WASHINGTON, Oct. 1.—Sophisticated old Washington cast off its dignity today to welcome home in sand-lit fashion its American League pennant-winning baseball club. For about the first time in history the city had a chance to stage its own parade, cheer its own heroes, and forget that it was the sedate capital of the nation.

High officials of the government plighted their state duties to turn out for the general scramble for points of vantage along Pennsylvania avenue and shout and yell as the champion team that has given the city its first pennant in the annals of baseball.

President Coolidge a week ago had carefully observed an hour from the demands of his official duties to take a leading part in the homecoming celebration, every detail of which had received the official stamp of approval of a committee appointed by the District commissioners.

The reception committee arranged to meet the players at the American League baseball park in automobiles and whisk them to peace monument, the starting point of the parade, in order to enable the team to take a snappy workout before the celebration.

Because pretty much the entire city seemed to want to march instead of look on, the committee limited the participations in the procession of few representatives. A squadron of mounted police formed the van of the colorful march. Other units included the United States cavalry band from Fort Myer, the Washington Riding and Hunt club attired in scarlet hunting coats; ten of the city's "most beautiful young girls," dressed in white and mounted on white horses; and a train of automobiles carrying representative citizens.

By starting the parade from the peace monument at 4:30 p. m., the committee allotted thirty minutes for the march down the avenue to the ellipse back of the White House, a short point of proclamation will be made providing for a brief address to the players by the president. Anticipating in advance the huge crowd

## PLAYERS WHO GAVE WASHINGTON CLUB ITS FIRST PENNANT

The players of the Washington Americans who captured their first flag are as follows (left to right): Back Row—Fred Marberry, Miller, Curley Ogden, Joe Martina, Tom Zachary, Walter Johnson, Leon Goslin, Shirley, Laffler, James Taylor. Middle Row—Allan Russell, Ossie Bluege, Captain Roger Peckinpaugh, Manager, Stanley Harris, Joe Judge, Sam Rice, Ben Tate, George Mogridge. Bottom Row—Paul Zahniser, B. F. Speece, Bill Hargrave, Harry Lebold, Griffith, Mascot; Al Schacht, Earl McNeel, Nick Altrock, Harold (Muddy) Ruel, and Martin.

## Otis P Sapp Back In Line

BY JOE WILLIAMS

NEW YORK, Oct. 1.—Among the unnecessary arrivals today was Otis P. Sapp of Mulberry county, N. Y.

Mr. Sapp has been taking in the world series, as he quaintly put it, since Paul Reverse's horse was a prankish colt in the meadows.

Not the least of Mr. Sapp's distinction is the fact that he was the first fan to stand in line all night to buy a ticket for the opening game.

This was way back in the long-haired days when Cy Young, Lillian Russell and the corn-cob pipe enjoyed equal popularity.

Quite a lot was made over Mr. Sapp's notable contribution to the annals of American imbecility.

People in the street pointed him out as a national hero. Mothers held their babies up to be kissed by him. Magic lantern magnates featured him on snappy two-colored slides.

As the years rolled on Mr. Sapp's fame grew to such proportions that no world series was considered complete without him.

Ready to Step Down  
"I've been wanting to step down in favor of a younger man for the past 10 years," Mr. Sapp informed your relentless correspondent today, "but the public just won't stand for it."

Mr. Sapp is not the man he used to be. Two bell boys threw him for a dead loss in the hotel lobby this morning. Mr. Sapp protested ignorantly. If they'd let me alone, I would have taught that durned purple cow."

In the old days Mr. Sapp was never disturbed by animal monstrosities, and he was always the last to leave the bar.

Mr. Sapp laments the passing of the old crowd among the all-night ticket hounds. "We haven't had a good quartet in the line since Bill Dineen pitched the Red Sox to victory back in 1903," complains Mr. Sapp. "I don't know whether it's because the songs are getting worse or the singers. There may be some melodic merit to a song like 'Mama Loves Papa,' but I'll take 'Silver Threads Among the Gold' for mine."

Sapp is Out of Tune.  
We fear the old campaigner is out of tune with the present.

Still, Mr. Sapp insists he is in the pink of condition and ready for the series of his life. Mr. Sapp will do some light training in the vicinity of the park tonight, sitting on a soap box until midnight. Tomorrow night he will extend this program till 3 a. m. On the big night he will be ready for a full 12-hour vigil.

"I won't have any trouble staying awake," he confides. "If the guy next to me don't start talking about the time he made a hole in one."

## Coffeyville, Kans. Home Town of Johnson Jubilant

(By The Associated Press)

COFFEYVILLE, Kan., Oct. 1.—Washington is not the only town in the United States that's doing some celebrating over their first American League pennant.

Coffeyville, Kansas is also considerably worked up about the thing. The reason is that this is the little home town of Walter Johnson, the Senators' pitching ace. His friends and neighbors are proud of him and many are going to witness the series.

Several of them left for Washington tonight for the opening game of the world series Saturday, when it is expected Johnson will pitch.

Coffeyville friends of Johnson who attend the series are assured of good seats. Early in the season Johnson promised that those who made the trip to the capital for the series would be taken care of and he wrote the other day that the promise still held good.

There will be a warm civic ceremony for Johnson when he returns to Coffeyville—regardless of the outcome of the series. But Coffeyville is not worried about that. Everyone is confident that Walter and his team mates will give the nation's capital a world championship in the same way they captured the American League pennant.

From Governor J. M. Davis' office in Topeka today a telegram was sent to Johnson extending the best wishes of "all Kansans."

Mrs. Walter Johnson, with two of her children, and Mrs. F. E. Johnson, Walter's mother, left for Washington Sunday in response to a telegram from the pitcher to "come on." They will be present at the homecoming celebration for the Senators today.

## GOSLIN GETS TOP

Billy Evans' Dope On Series

## LEFT FIELD MARK

Goslin, Washington—Bats left and throws right handed. Has a rather awkward style in the field but covers much ground. At bat he takes a terrific cut at the ball and is one of the most dangerous batters in the majors. Has come fast during the last two years. Much improved player.

## For the Game's Sake

By LAWRENCE PERRY

(Copyright, 1924, by The Bee)

NEW YORK, Oct. 1.—It would seem that the authorities of Loyola University in New Orleans have an erroneous idea as to just what the functions of the Notre Dame football eleven are.

The South Bend team will be in Atlanta playing Georgia Tech and President D'Antonio of Loyola, has asked the Notre Dame authorities to "make a two weeks trip of it and to drop into New Orleans where they can remain a week" and then play the team of the young New Orleans institution on the Saturday following.

The money consideration is ten thousand dollar guarantee and expenses, a matter, it is estimated, of about two thousand dollars.

It will perhaps be brought to the attention of the Loyola promoters that football is not the main interest of Notre Dame University and that, strange as it may seem, the young gladiators are seriously, more or less, pursued of scandal.

At any rate the president of Loyola seems to be under a misapprehension concerning this Atlanta journey of the South Benders.

They will not adjourn for a week or so in Atlanta before repairing to Grant field to meet the Yellowjackets. And to protect Walter Johnson's famous right arm from too vigorous pumping by the thousands who want to use the handshake method of expressing their admiration for the work of Washington's pitching ace during the pennant race. It was urged that to save the right arm exclusively for the Giants, the left be accepted in the proffered congratulatory shake.

Word comes quietly to the writer

## EIGHT GAMES ON GRID SCHEDULE FOR D. M. I.

The Danville Military Institute's good account of itself this season. Games scheduled are: October 4th—Martinsville High school at Danville. October 10th—South Boston High school at South Boston. October 18th—Leaksville High school at Danville. October 25th—Oxon. November 1st—Blackstone Military Academy at Blackstone. November 8th—Reidsville High school at Danville. November 15th—Randolph Macon Academy at Bedford. November 22nd—Chatham Training school at Danville.

## FOOTBALL QUESTIONS

If You Have Some Question to Ask About Football Write—

LAWRENCE PERRY.

Special Football Correspondent of The Bee, 814 World Building, New York

Question—Suppose on a kick-off, there is a crowd behind the goal and the ball goes into the crowd. The kicking side players go down the field and scramble into the crowd with the players of the receiving side, both trying to get the ball. A player of the kicking side discovers and falls on it. Does he get a touchdown?

Answer—No, he gets a touchback. Exactly the same decision is rendered as when the kick-off goes into a stand of the goal. In each case the ball is automatically a touchback.

Question—Suppose a team defending its goal punts from behind its goal line. The punt is blocked and goes among the spectators or into a stand. A player of the side blocking the punt gets the ball. Does he get a touchdown?

Answer—No, he gets nothing for his punt since in such case, as that, presented above a safety against the team whose punt was blocked is automatically effected. If players would study more deeply the rules covering balls going out of bounds there would be fewer wild and footless scramblings and fewer injuries.

NEW YORK, Oct. 1.—Saxophone English is working havoc with the "other tongue." Otto G. Van Camp, a teacher of self-expression, told the I Ching Club here, "When a person says 'Whadja say?' and 'What-cha got?' and calls a bird a 'bold,' it's time something was done," the speaker declared.

## Walker-Barrett Bout to Be Tonight

PHILADELPHIA, Oct. 1.—Weather conditions permitting the 10-round championship bout between Mickey Walker, holder of the world's welterweight title, and Bobby Barrett, of Clifton Heights, Pa., will be held tonight at the National league baseball park. The men were to have met last night but rain caused a postponement.

## COAL STONEGA COKE

## BUT WHAT DO YOU GET? YOU PAY

Every time a carload of that black stuff called coal is delivered to your plant it must be paid for—but do you know just what you get in exchange for your perfectly good coin of the realm?

It takes only a few surplus pounds of rocks or dirt to make those tons of fuel a purchase so extravagant that few firms could afford it. Thus coal users who "shop around" for cut-price fuels are always the ones who complain of high production costs.

General Coal Company is prepared to show you exactly what you will get in return for your money, and you will contract with us to provide what fuel you want—when you want it—at a stable price throughout the year.

Ask the nearest office for full particulars.

### LEATHERMAN URGED

HER ON, TESTIFIED

(By The Associated Press) FREDERICK, Md., Sept. 30.—Mrs. Mary Shank, pleaded guilty in circuit court to tarring and feathering 20-year-old Dorothy Grandon, at Myersville, last July, took the witness stand for the state at her own request today, and testified that Harlan Leatherman now on trial on the same charge was the organizer of the mob that attacked the young girl.

"I'll get the mob," Mrs. Shank said. Leatherman told her when the attack was planned. He then left her. Mrs. Shank said, returning in a short time with six automobiles filled with men.

The prosecution rested its case today and the defense testimony was begun. Most of the witnesses for the defense testified as to Leatherman's character. His reputation for being a good, honest man, the defense sought to introduce testimony derogatory to Mrs. Grandon's character, were not permitted by the court.

VERMONT DEMOCRATS OPPOSE K. K. KLAN (By The Associated Press) RUTLAND, Vt., Sept. 30.—The Democratic state convention meeting here today expressed in its platform opposition to the Ku Klux Klan and to the 18th amendment to the federal constitution as expressed through the Volstead act. Fred C. Martin of Bennington, was unanimously nominated as the party's gubernatorial candidate to fill the vacancy on the ticket by the death of H. E. Shaw about a week ago.

### THE GUMPS

"GO OUT AND TALK TO THE VOTERS THE WAY YOU TALK TO ME AND SEE HOW MANY VOTES YOU'LL GET—JUST TAKE THAT WINNING SMILE THAT YOU HAVE ON YOUR FACE NOW OUT ON THE PUBLIC PLATFORM AND SEE WHETHER THEY CHEER OR HISS YOU—THE GREAT ANDY GUMP—MAKING YOU PRESIDENT IS LIKE HIRING A CLOWN TO PLAY HAMLET—"

ANDY GUMP ROSES FOR THE WHITE HOUSE. HE HAS NO MORE COLLAR.

WILL YOU JUST KEEP YOUR HANDS OFF OF MY AFFAIRS—WHEN I GET IN THE WHITE HOUSE, THAT'S ALL I'M ASKING—THEY ELECTED ME—NOT YOU—I'LL HAVE A CABINET TO HELP ME GUIDE THE SHIP OF STATE—YOU'LL NEED ALL YOUR WISDOM TO PLAN THE MEALS—IF YOU THINK YOU HAVE SO MUCH EXECUTIVE ABILITY WHY DON'T YOU GO TO TEXAS AND BE ABLE TO GOVERN—THEY ALLOW ONLY ONE PRESIDENT IN THE WHITE HOUSE AT A TIME—

IF YOU RUN THE COUNTRY LIKE YOU RUN YOUR HOME YOU'D BETTER ORDER OUT THE ARMY AND NAVY THE DAY YOU'RE INAUGURATED.

WELL, ALL YOU'VE GOT TO DO IS TRY TO GRACE THE POSITION OF FIRST LADY OF THE LAND—WELL AS I ADORN THE OFFICE OF PRESIDENT—AND DON'T FORGET TO TAKE CARE OF YOUR KITCHEN CABINET AS WELL AS I TAKE CARE OF MY PRESIDENTIAL CABINET—

WANTS COTTON ACREAGE FIGURES MADE PUBLIC (By The Associated Press.) TUPELO, Miss., Sept. 30.—In a telegram today to Secretary Wallace of the department of agriculture, Rep. John E. Rankin, chairman of the congressional committee on the readjustment of crop estimates and ginners reports, urged that figures collected by the department showing cotton acreage abandonment for the year be made public simultaneously with the condition report to be issued early in October.

Mr. Rankin declared that the acreage abandonment this year was "record-breaking" owing to excessive rains throughout the cotton belt and expressed the opinion that it would be a grave injustice to both the producers and consumers of cotton to hold this vital information from the public until December.

### NEW YORK RESTAURANTS CLAMP LID ON TIGHT

NEW YORK, Sept. 30.—The selling of liquor by waiters and other employees will no longer be tolerated by members of the United Restaurant Owners' Association Inc. of New York, says The Times today. This statement was made yesterday by Joseph Burgen, president, who made public the policy recently adopted by the association and contained in the following notice to members.

"Restaurants should refrain from the selling of alcoholic beverages prohibited by Federal and State legislation. We believe the drinking of light wines and beer sanctioned by custom in most parts of the world, to be a harmless pleasure and an aid to digestion, and we are therefore in favor of the legalization of the sale of these beverages, but so long as the present prohibition legislation remains in force it is our duty to obey the law.

"Aside from the moral aspects of the question, important as they are, there is the consideration that the modern restaurant represents a large investment, and one that should not be jeopardized by illegal operations. Liquor-selling is not only bad ethics but bad business. Those who sell alcoholic beverages to patrons should be dismissed as soon as they are discovered."

MAJOR BUTLER WILL KNOW HIS FATE TODAY (By The Associated Press.) PHILADELPHIA, Sept. 30.—Director of Public Safety Butler is expected to return today to his desk at city hall tomorrow, according to Dr. Hubley R. Owen, chief police surgeon, in attendance during General Butler's illness.

The "communication" of Mayor Kendrick, said to request the director's resignation as due to be laid upon the director's desk upon his appearance Mayor Kendrick previously withheld it, declining to send it to the general's residence.

DAVIS BATTLES FOR BORDER STATE VOTE

NEW YORK, Sept. 30.—John W. Davis will take his campaign tomorrow in the first of the "border" states. Leaving here at midnight tonight, he will make his first stop at Frederick, Md., where he will address a meeting of the women's clubs. After his talk there he will go to Baltimore to deliver the first of his major addresses in the east.

The Democratic candidate will speak at the fifth regiment armory, the scene of the memorable battle where Woodrow Wilson was first nominated as the Democratic standard bearer.

Returning to New York Mr. Davis will open his campaign in this state with an address at Madison Square Garden Thursday night.

Friday he will invade New Jersey for a second time with speeches at Trenton, Elizabeth and Newark. On Saturday he will speak at Providence, R. I., and after spending Sunday in New York City he will begin the second long trip of his campaign, moving through upper New York into the west.

Before leaving New York tonight Mr. Davis was the honor guest of the Davis theatrical league league. In a brief address he expressed his appreciation of the work being done in his behalf by that organization.

Johns Hopkins surgeons recently made a new wheel for a man. Usually surgeons expect their patients to be well healed before they treat them.

## MORNING STOCK LETTER

Thomson & McKinnon  
NEW YORK Oct 1.—Pardon me for injecting politics in these little letters. I am doing so because I believe it is the most important factor in the market today. Should the wrecking crew get hold of the government you will have more serious things to talk about besides dividends and bond issues. The millions of small investors and savers will have something more serious to talk than the fool laws that are being promulgated. They will discover that their savings are invested in the very properties which the wrecking crew will attack first. Judge Gary has always been a wise counselor. Let me repeat what he says: "There are always people, who cry calamity who seem to thrive and glory in adversity, and whose principal occupation seems to be to stir up trouble depression and ineffectuality in business and despondency with the apparent view of bringing very one down to their level of poverty and unhappiness. If the majority of voters are wise we shall see big business coming on pretty fast after election."

## MORNING COTTON LETTER

Thomson & McKinnon  
NEW YORK Oct 1.—Cables better than due. Atlanta Journal of Commerce condition 56.4 against 62.2 last month indicating crop of 13,015,577 with normal weather prevailing. Manchester view better prospects for cotton trade but still on short time schedule. Hand to mouth buying in South inclined to hold for 25 cents.

Believe that fear of bullish government condition figures and recent indication in crop estimates will result in increased trade buying on declines.

## CHICAGO GRAIN.

(By The Associated Press)  
CHICAGO Oct 1.—General commission house selling together with lack of adequate support from buyers led to lower prices for wheat today in the early dealings. The selling was said to be largely of the profit taking character on the part of holders. Wheat opened 5-8 to 1-4 cents lower. Corn opened unchanged to 1-5-8 up. Oats started unchanged to 1-2 cent off. Provisions rallied by an upturn in hog values.

## Everyman's Investments

By GEORGE T. HUGHES

Seventy-seventh Article  
Speculation and Business.

One of the strongest arguments against speculation aside from the loss that practically all speculators involve sooner or later is the effect upon the mental attitude of the one who indulges therein. This is especially true in the case of the active business man. Rare indeed can a man keep his mind upon his own business when he is actively engaged in buying or selling speculative securities.

Few persons have the ability to concentrate upon business problems when their minds are taken up with the fluctuations in the markets. In these days of active competition success in trade or industry depends upon constant application and that is almost impossible for one who has extensive speculative commitments. Those who make a business of speculation devote their entire time to it and even then with rare exceptions it is a losing game. For the man who has other affairs to engage his attention to attempt to win where so many lose is sure to be fatal either to the business or the speculation. If by any lucky chance he is ahead of the game he is apt to excuse carelessness in the work on which he depends primarily for a living by the thought of a speculative profit. If as usually happens, he is behind the game his whole mind is centered upon recouping his losses or some new venture.

What is true of business is true of professional men also. Few people would knowingly employ a physician who is not in a position to devote his entire mental activities to his patients. It is only fair to say that as a class doctors are notably exempt from the speculative mania but at times it seizes upon all kinds of victims. I simply use the case of the physician as an illustration of the impossibility of doing two things at once.

All this is said without regard to any question of propriety or morals. I am not one of those who regard speculation as intrinsically wrong. As our social system is constituted and must be, it must carry the speculative risk but before you make up your mind that you belong in that classification consider first and seriously how embarking upon such ventures will affect the personal responsibilities you have assumed toward others in either your business or your profession.

(Copyright, 1924, by The Bee)

(Mr. Hughes' seventy-eighth article will appear in The Bee next Saturday.)

## IRISH BOUNDARY BILL IS EXPECTED TO PASS

LONDON, Sept 30.—The bill intended to put the Irish boundary commission into force was the subject of a ten hour debate in the house of commons today but the house adjourned at 11 o'clock tonight and will be taken up again tomorrow.

The prime minister, James Macdonald, moved the second reading of the bill and there is little doubt that the motion will carry. At the outset he said the government was convinced that there was nothing else to be done about this ever-present Irish situation except to make article 12 of the Anglo-Irish treaty operative, as every effort by the government to have the premier of northern and southern Ireland agree between themselves had failed.

## NEW YORK STOCKS.

(By The Associated Press)  
NEW YORK Oct 1.—Conflicting price movements marked the opening of today's stock market but the main appeared to be upward. Further buying of the southwestern rail shares sent Missouri Pacific to a new 1924 high price at 23. Several specialties reached new tops, with American Can recovering a point. Oil stocks were weakened by the extension of gasoline price cuts and some of the motor and food issues were easy.

Record-breaking carloadings for the week ended September 20 and approval by the Interstate Commerce Commission of the Southern Pacific-Ellipsos Southwestern merger caused a broad buying movement in the rail shares. Demand was centered mainly in the southwestern group, embracing Southern Pacific, Rock Island, St. Louis-Southwestern and Frisco issues. Lehigh Valley touched 63, the highest price since the segregation of the road's coal properties. Establishment of a new high record by United States Cast Iron Pipe at 116 and renewed accumulation of various Sinclair preferred and Atlantic refining lost a point each. American Can extended its gains to two points with Associated Drygoods and New York dock advancing 3. Shares of the Radio Corporation of America were dealt in for the first time, opening at 26 7/8. Foreign exchanges opened firm.

## NEW YORK COTTON.

(By The Associated Press)  
NEW YORK Oct 1.—Yesterday's decline in the cotton market was followed by nervous and irregular fluctuations early today. The opening was steady at a decline of three to 13 points under selling promoted by the favorable weather outlook and a private report estimating the condition of the crop at 56.4 and claiming a 13,000,000 bale yield was still possible. Rallies followed another private report giving the condition as 54.7 and the indicated yield 12,400,000 bales. There also was some buying on unfavorable features in the weekly review of the weather bureau. On the whole the latter was considered about a stand off with reports of light frost in the belt had little or no effect. After selling up from 24 1/2 to 24 5/8 December eased off to 24 1/2, the general market selling about 14 to 21 points net lower in the first hour.

October	25 30
December	24 53
January	24 58
March	24 85
May	25 04

## NEW ORLEANS COTTON.

(By The Associated Press)  
NEW ORLEANS Oct 1.—The cotton market opened easy although Liverpool at the time was about as due. First trades showed losses of 8 to 10 points and prices eased off further right after the call mainly on the surprisingly large crop estimate by a well known New York authority who made the yield 13,015,577 bales at a condition average of 56.4. The weather map was also fair for the entire belt which encouraged a disposition to sell. October traded to 24 1/2, December to 24 1/2 and January to 24 1/2 or 18 to 19 points below yesterday's close.

October	24 50
December	24 39
January	24 39
March	24 42
May	24 62

## LIVERPOOL COTTON.

## JEWISH NEW YEAR'S DAY FESTIVAL HAS CLOSED

Rosh Hashanah, the Hebrew New Year's day, the beginning of the year 5685 in the Jewish calendar, closed yesterday after a two-day celebration. The observance is a festival occasion and one marked by the suspension of business by those of the Jewish faith and by home festivals and joyousness and feasting. The New Year advent was generally observed by both orthodox and reformed Jewish congregations.

## BUTTER.

(By The Associated Press)  
CHICAGO, October 1.—Butter higher, creamery extras 36; standards 24; extra firsts 23 1/2-23 3/4, firsts 21 1/2-22 1/2; eggs unchanged.

## MORNING SUGAR LETTER

NEW YORK, Oct 1.—Contrary to earlier forecasts a huge increase in European beet sugar is now assured as well as a substantial higher yield for the domestic crop. While the strong immediate statistical position will probably maintain a steady market for the remainder of the season, the new crop, which will be a source of enthusiasm for the immediate future, is expected to be a source of disappointment.
